## Will Taglish Ever Replace English? In Manila, There's Plenty of Choice

By Seth Mydans New York Times Service

MANILA - Back in high school, Ponziano Pineda was a dutiful boy who spoke only English. In fact, he was a monitor who fined his fellow students if he caught them speaking their indigenous

language.
Today, in keeping with changing times, Mr. Pineda, a linguist, avoids English and is deep in a national debate over just how to replace it as a common tongue bridging the many languages of the

The downgrading of English, which Mr. Pineda says is spoken to some degree by perhaps 35 percent of the population, is part of an emerging sense of nationalism. But the debate over the form of

its replacement is a sign of continuing uncertainty about just what this national identity should be, four decades after gaining independence from the United States. A new constitution adopted this

year states that the national language is something called Filipino. But there are emotional divisions, along regional and philosophical lines, over what language this is.
At the same time, many Filipinos have expressed concern about the decline of English as an international tool in a country that claims to be the world's third-largest En-

glish-speaking nation.
As other Asian nations move ahead economically, they say, facility in English is one of the Philippines' major assets in commerce and tourism.

These concerns, often voiced during the presidency of Ferdinand E Marcos, seem to have lost ground to the nationalist arguments of men like Mr. Pineda, who said: "It's not a native language. That's it"

Nicanor Tiongson, artistic director of the Cultural Center of the Philippines, sees English as having harmed his nation by cutting its educated classes off from most of their countrymen. "English has created a cleavage

between the intelligentsia and the masses," Mr. Tiongson said. "The two classes do not speak the same language, and the ideas of the educated cline do not filter down." The most widely used of the local tongues is Tagalog, the language of central Luzon Island, which is spo-

ken by about 23 percent of the It forms the basis of something called Pilipino, a widely used amal-gam incorporating many Spanish

In Manifa, a mother looks through comic books.

successive colonizers. Mr. Pineda says the national language, Filipino, can only be Pilipino, a living language that is generally understood throughout much

of the country and that adapts itself readily to local usages. Mr. Tiongson, a former head of the department of Filipino languages at the University of the Philippines, said Pilipino is, more precisely, the language of Manila and has spread through its dominance of movies, television and comic books, the nation's most

SEOUL - President Chun Doo Hwan of South Korea said Wednesday that evidence was growing that North Korea planned the sabotage of a Korean Air jet that apparently crashed in Burma

The Korean Air jet disappeared while flying from the Middle East to Bangkok. South Korean officials now believe that the plane was destroyed in midair by a bomb, killing all 115 people aboard.

Mr. Chun said Wednesday that preliminary Japanese investigations appear to tie North Korea to a still unidentified Asian couple that traveled on the jet on the first leg of its flight and then swallowed suicide pills when questioned by

"It is a plain fact that North Korea has intensified its provocative moves to obstruct the Seoul Olympics and the upcoming presi-dential election," Mr. Chun said. The country's first direct presidential election in 16 years is set for Dec. 16.

The 1988 Olympics are scheduled to take place in Seoul next September, but North Korea is trying to have some of the games

By Keith B. Richburg

Washington Past Service
MANILA — The government of

President Corazon C. Aquino, in

an unusual move against the press,

has ordered an Australian journal-ist expelled from the Philippines for writing articles criticizing the

country as a bad place for business

The expulsion order against Mi-

chael Byrnes, correspondent of the Australian Financial Review, was

considered startling because Mrs. Aquino campaigned for office on a

pledge to restore press freedom and

not to resort to the same heavy-

handed methods of controlling the

media as her predecessor, the de-

posed president Ferdinand E. Mar-

there was uncertainty within the government as to whether the order

The order for Mr. Byrnes's ex-

pulsion, from the immigration of-

fice here, was based on a telexed

recommendation from the Philip-

pine ambassador to Australia. The

Byrnes article, published in the Nov. 26 issue of the review, said

that Australian investors "should

be more selective and informed,

concentrating on the successful economies of the region and avoid-

ing the lemons."

would actually be carried out.

Late on Wednesday, however,

Many people here said that the bizarre and tragic end of flight 858 is likely to help Roh Tae Woo, the ruling Democratic Justice Party candidate, in the election if North Korean subotage is confirmed. In his campaign, Mr. Rho, who has Mr. Chun's backing, has empha-sized the importance of stability and continuity to contain North

Korean aggression. A spokesman for the ruling party, Lee Min Sup, issued a statement saying the incident should serve as a warning to political leaders "who do not hesitate to make such remarks as will harm the security posture of the nation."

Evidence of North Korean involvement remained tenuous and circumstantial Wednesday night. reckage of the jet, believed to lie in jungle near the Burma-Thailand border, has not been found and the cause of the apparent crash re-mained speculative. Earlier reports that the downed plane had been spotted proved false.

The Japanese police, meanwhile, disclosed new details that appeared to link the two mysterious Asian passengers to a Korean resident of Japan who was involved in a North Korean spy ring several years ago

**U.S. General Discounts** 

By Fred Hiatt

Washington Past Service SEOUL — The commander of

U.S. forces in South Korea said

Wednesday that he could not imag-ine any scenario in which the Unit-

ed States would use nuclear weap-

General Louis C. Menetrey, fol-

lowing standard U.S. policy, said

that he would neither confirm nor

deny the presence of nuclear weap-

ons in South Korea. But in answer-

ing a question at a forum of Korean and U.S. military experts, he was

unusually explicit in ruling out

"I do not envision any circum-

stance which I can imagine which

would require the use of nuclear

weapons, the general said.
The United States is widely be-

lieved to maintain several hundred

tactical nuclear weapons, including

ons in Korea.

In any case, he added, "tactical nuclear weapons, wherever they might be, are a deterrent."

The general's comments were made at the close of a three-day conference sponsored by the Council on U.S.-Korean Security Studies. The council is chaired by the retired General Richard G. Stilwell, a former commander in Korea and former deputy undersecretary of defense in the Reagan administration, and the retired General Paik Sun Yup of South Korea.

The presence of nuclear weapons in South Korea is potentially volatile, although this has not become an issue in the South Korean presi-dential campaign as some officials

had feared it might. North Korea, appealing to nationalistic sentiment among South Korean students, has frequently called for removal of U.S. forces from the peninsula and the formation of a "nuclear-free zone."

The issue of nuclear weapons in

South Korea was raised by Peter Hayes, a member of the Energy and Resources Group at the University of California in Berkeley and a critc of U.S. nuclear policy in Korea. Mr. Hayes said that, in part be-

cause of the presence of U.S. nuclear weapons, there may be more danger of a conflict in Korea escalating into nuclear war than anywhere else in the world.

He said that such short-range weapons have little military use be-cause the radioactive fallout would be as dangerous to friendly forces and civilians as to the enemy.

### **Perle Faults** Verification In Arms Pact

By Michael R. Gordon New York Times Service
WASHINGTON — Richard N.

Perle, a former Pentagon official whose hard-line views are expected to be influential in the Senate debate over ratification of the new missile treaty, has sharply criticized some of the verification provisions

in the treaty. Speaking Tuesday, Mr. Perle, a former assistant secretary of defense for international security policy, also said that the Senate should consider attaching reservations to the accord.

He suggested, however, that he would ultimately support ratification of the agreement banning shorter- and medium-range arms. Looking toward the U.S.-Soviet summit meeting next week, Mr. Perle urged President Ronald Reagan not to set a date for a follow-up meeting in Moscow. He said that would put Washington under too much pressure to reach a pact reducing strategic arms.

One issue is whether the verification arrangements for the treaty on ntermediate nuclear forces would serve as an adequate precedent for a future agreement reducing strategic, or long-range arms.

treaty would not allow short-notice inspections anywhere in the Soviet Union.

Acting Mayor Is Elected in Chicago

CHICAGO — Eugene Sawyer, the longest serving black alderman

Chicago, was elected acting mayor on Wednesday after and alderman CHICAGO — Eugene Sawyer, the longest serving black aldering in Chicago, was elected acting mayor on Wednesday after a chaotic 6% for City Council meeting at which spectators, complaining of politicing as supposed back-room agreements over the vote, waved dollar bills and thousand "No Dealet" shouted "No Deals!"

shouled "No Deals:

Mr. Sawyer, who has ties to the regular Democratic organization, will fill in for the former mayor, Harold Washington, who died Nov. 5 of 1 heart attack. He will serve until a mayoral election, expected in April 1989, to fill the post for the remainder of Mr. Washington's term I mutil April 1991.

Mr. Sawyer was elected with the help of many of the white alderna who once had vigorously opposed Mr. Washington. The reform months ment initiated by Harold Washington shall remain intact and go for

#### 19th Game in Chess Match Adjourned

SEVILLE. Spain (Reuters) — The 19th game of the world dischampionship was adjourned Wednesday after 40 moves.

Experts said the challenger, Anatoli Karpov, who holds a one-pany advantage, was expected to try for a victory in the second second Thursday, but they did not feel that the champion, Garri Kasparov, was in serious danger of losing the game.

The 24-game match is tied at nine points apiece.

## Sihanouk and Hun Sen **Extend Cambodia Talk**

FERE-EN-TARDENOIS, France — Prince Norodom Siha-nouk, the former Cambodian leader, met on Wednesday with Prime Minister Hun Sen of the Vietnamese-backed Cambodian govern-ment, in a first tentative effort to Cham Prasith, a vice cabinet mi end the country's guerrilla war. The ter. two agreed to extend peace talks by at least another day.

In a brief news conference after the six-hour meeting, Prince Ran-ariddh, Prince's Sihanouk's son, said the meeting had been "very warm but frank."

He added that the meetings would continue Thursday and per-haps Friday to work out details for a second round of negotiations to be held in Pyongyang. North Korea. He said that no date had been set for the future talks. Mr. Hun Sen told reporters that

the discussion had been "friendly" and was "an opening for a real solution" to the guernila conflict. But he emphasized that no agreement had been reached.

The meeting marked the first time that Prince Sihanouk has entered into negotiations with mem-bers of the Cambodian government, which was installed after Vietnam invaded in December 1978 to end the three-year reign of terror by the Communist Khmer

Rouge.

The meeting took place in the small French village of Fere-en-Tardenois, about 60 miles (100 kilometers) from Paris in the Cham-

## Afghan Leader's Plan For Soviet Withdrawal Held Inadequate by U.S.

By Elaine Sciolino New York Times Service

WASHINGTON — Reagan administration officials have described the Afghan government's proposal to have Soviet troops thdraw over a period of 12 months as inadequate.

They said Tuesday that they expected Mikhail S. Gorbachev, the Soviet leader, would discuss a formal withdrawal proposal when he meets here with President Ronald Reagan next week.

Afghanistan's proposal, made in a speech Monday by the Afghan leader, Major General Najib, contains conditions that are unacceptable to the United States and Pakistan, the officials said.

The unacceptable conditions include a cutoff of U.S. and Pakistani aid to the Afghan guerrillas and the creation of a coalition government of Afghan and insurgent officials before any withdrawal begins, the officials said. In addition, the pro-posal does not give a starting date for the withdrawal of the estimated 115,000 Soviet troops in Afghani-

"We don't see anything excep-tionally fresh" in General Najib's speech, said an administration offi-cial who closely watches Afghanistan. "If what he has to offer reflects the Soviet position, it doesn't look very encouraging."

Other administration officials

characterized General Najib's speech as the most recent in a flurry of statements suggesting flexibility on the withdrawal timetable, but offering nothing concrete. A State Department spokesman, Charles E Redman, said Tuesday that what is now required is "a date certain for the beginning and completion of the withdrawal of Soviet forces."

Mr. Reagan has said he will press the Russians to agree to a reasonable withdrawal timetable free of unacceptable conditions, which Undersecretary of State Michael H. Armacost said Monday was

"the sticking point" in U.S.-Soviet talks on an Afghan settlement. Mr. Gorbachev, for his part, said in an interview with NBC News broadcast Monday that if the United States wanted a political solution to the problem, "it could be done very quickly."

in recent months, as the guerrillas have increased their military ability, the Russians have sought to deflect attention from the troop withdrawal issue and focus on the need for an end to "outside interference." Mr. Gorbachev may seek U.S. cooperation in urging the Al-ghan insurgents to work with the Alghan regime for a political solu-tion, according to interviews with Soviet officials, a position the re-bels and the administration have rejected outright.

The only stumbling block now is for the United States to pressure its friends to make a choice in favor of the national reconciliation process," a Soviet official said.

In Moscow, Prime Minister Bob Hawke of Australia said Tuesday that Mr. Gorbachev had told him that he was considering a shorter timetable than 12 months for withdrawing Soviet troops.

Mr. Hawke quoted the Soviet leader as having said that he had been in contact with General Najib in the past 24 hours and that "there might be the possibility of an earli-er withdrawal than contemplated." A Soviet official in Washington

declined comment on Mr. Hawke's remarks, but said that if the United States used its influence to push the guerrillas into negotiations with Kabul, "the timetable could be Administration officials said

that the United States would be adamantly opposed to such a gesture, adding that the Russians were mistaken if they believed that Washington could order the fieroely independent Afghan rebels to behave in a certain way.

#### GLASNOST: Experts Devouring Feast of Soviet Data ABM:

(Continued from Page 1) figures again, and to Mr. Feshbach the numbers ring true.

The Soviets used to rail at Murray for 'Cold War statistics,' " says Robert Conquest, an historian. "Now they know he was right."

In the dim, old days of Sovietology — that is, the period from the Bolshevik Revolution of 1917 until the ascent of Mikhail S. Gorbachev in 1985 - Western scholars often were reduced to the footprint-andbloodhound techniques of Sher-

Kremlinologists looking for op-position in the Polithuro studied the order of pallbearers at state funerals. Historians researching the life of Trotsky found him erased from official Soviet photo-graphs and records. Sociologists and journalists set out to describe problems such as AIDS and drug abuse while the Soviet press insisted they did not exist.

Glasnost has gone a long way to change all that. Western scholars, intelligence analysts and students of the Soviet Union are now able to draw a clearer, more complete picture of policy debates and the society in general simply by reading Soviet newspapers and journals — publications that in years past had been nearly useless.

Although Mr. Feshbach and many of his colleagues are quick to caution that the Soviet Union still withholds a tremendous amount of information in nearly every sphere of life and still has not been forthcoming on a myriad of historical, defense and foreign policy questions. Sovietology as a field has been transformed by the Gorbachev Revolution.

The volume of new material, says Professor Stephen Cohen of Princeton University, is "astonish-

ing."
"Now Sovietologists have to work for a living." The Soviet press, which was once nearly monolithic, now features publications both liberal - Moscow News, Izvestia and Ogonyok, to name a few - and more conser-

He endorsed the Senate for ratification. support Nicaraguan rebels, known as the contras.

"You haven't answered my ques-tion," Mr. Haig insisted. "You are posal, and he suggested he would running for president and I think the American people want to know the position you took."

The other Republican candidates participating were Representative Jack Kemp of New York; Bob Dole of Kansas, the Senate minority leader; Pat Robertson, a former television evangelist; and Pierre S. du Pont 4th, a former contra affair. governor of Delaware.

The Democrats included Mr. Simon; Bruce Babbitt, a former governor of Arizona; Governor Michael S. Dukakis of Massachusetts: the Reverend Jesse L. Jackson; Senator Albert Gore Jr. of Tennessee; and Representative Richard A. Gephardt of Missouri.

Of the Republicans, Mr. Kemp was the only one who said he would pardon Lieutenant Colonel Oliver . North, a former National Security Council aide, and Admiral John M. Poindexter, a former national security adviser, for their roles in the Iran-contra affair.

"It's time to stop investigating

Ollie North and start investigating the Congress," he said, alluding to the decision by Congress not to Mr. Robertson, Mr. Haig, and Mr. Dole withheld judgment on whether they would consider a pardon. Mr. Bush did not directly respond on whether he would pardon the two, but he praised the patrictism of both men.

When the Republicans took the stage, only Mr. Bush supported the new arms treaty without reservation. He noted that all the leaders of Western Europe had endorsed it,

and he described it as a "major

breakthrough in verification." Mr. Kemp said, "We should not rush into signing a treaty with the Soviet Union until we force them to comply with previous agreements."
He said they had violated the

arms sales to Iran were diverted to support Nicaraguan rebels, known as the contras.

"I am happy the president is signing it," Mr. Dole said. But he added: "We ought to be certain it can be verified." He said he wanted time to "read and study" the protry to add provisions that would allow him to support it.

In their foreign policy segment, the Democratic candidates repeatedly criticized Mr. Reagan's arms sales to Iran and his policies in Central America. They questioned his policies in the Gulf and assailed Reagan subordinates for the Iran-

agreement among themselves. In-stead they aimed their criticism at the Republican candidates and Mr. falling behind Mr. Smoon in recent stead they aimed their criticism at the Republican candidates and Mr. Reagan's record. #### INTERNATIONAL ORGANIZATION OF CONSUMERS UNIONS DIRECTOR GENERAL •

IOCU is an independent, non-profit foundation linking the activities of consumer organizations worldwide. The Director-General will be based in The Hague. There are also other offices in Penang and Montevideo. The Director-General is cutive Officer of IOCU and will be resp for the direction, coordination and management of this important international

Candidates should provide evidence that they possess the necessary skills for the post. While experience and knowledge of the consumer movement is desirable, applications will also be welcomed from candidates with relevant experience in similar and related concerns.

Applications in English should be sent before 1 February 1988 to: Dick Westendorp, Vice-President, IOCU, Emmastraat 9, 2595 EG The Hague, The Netherlands. Telephone: +31 70-47 63 31.

KLM serves 132 destinations world-wide. And at every single one you will find KLM's own ground staff. To offer help and assistance. And a friendly smile.

Even in those places you least expect it.

Anywhere in the world. Test us, try us, fly us.

The Reliable Airline

We are looking for an experienced sales executive for our Düsseldorf office. This is an opportunity to join the advertising sales team of TIME-LIFE International.

You should have an impressive sales background and an interest in advertising/marketing is a must. You are internationally minded, but most importantly enjoy selling. Ideally, you are 30-35 years of age and fluent in German as well as English.

We offer full employment benefits, a competitive salary and a company car.

Please send your application with salary history in English to: Heiko von Ahlefeld, Area Sales Manager, TIME Magazine, Königsallee 58, D-4000 Düsseldorf.

All applications will be treated with strictest confidence.

VP INTERNATIONAL PERSONNEL

Fortune 200 consumer products company. Will be based in New York City headquarters. Seek international human resources professional with training in aggressive consumer mar-

keting organizing, up through country, regional and head-quaters generalist roles. Minimum 15 years international

experience. Fluent English and one or more other languages.

Attractive base salary, bonus and stock options. Global travel.

Please send resume in confidence to:

P.O. BOX 534, Wilton, CT 06897 U.S.A.

## **European Human Resources Manager**

We're Aeroquip, an international manufacturer of power and motion components with offices around the world. At this time, we have an excellent managerial position available with our European Group which includes 2200 employees in 15 plants.

This position is located in our Baden-Baden, Germany lacility and reports to the European Group Vice President. Responsibilities include recruitment of top and middle managers and administration of employee development programs including supervisory training and succession planning.

To quality, you need at least 10 years' personnel management experience and the ability to write job descriptions and evaluate jobs using the Hay System. In addition, you must write and speak German and French.

Aeroquip offers a very attractive salary and benefits package. For prompt consideration, send your resume to: Nathaniel Jackson, Aeroquip Corporation, 300 S. East Avenue, Jackson, Mi 49203-1972. Equal Opportunity

The prospects of that agreement

UNITED NATIONS, New York - The United Nations secretary-general, Javier Pérez de Cuéllar, told member states Wednesday that the UN must start borrowing in financial markets for the first ume to avoid the threat of insolvency next year, largely as a result of the U.S. failure to pay its dues.

He told the General Assembly that without such borrowing and without additional contributions from member governments, the UN would run out of money next August, assuming that the amount and timing of the U.S. contributions in 1988 follow the same pattera as this year.

To stave off insolvency next summer, he asked the General Assembly for authority to borrow as tained for questioning, and there has been closer than ordinary coormuch as \$50 million on international financial markets at comdination with Northern Ireland aumercial rates of interest to tide the organization over until all members Mr. Haughey is trying to carry pay what they owe.

If the General Assembly agrees, tion, endorsed in 1986 by the previthis would be the first time the UN ous Parliament, but he also wants has borrowed on commercial marto demonstrate some independence kets. In the 1960s, the world body from Britain to Irish voters. They raised about \$169 million to help aimed at finding arms that are have long been skeptical that Irish pay for its peacekeeping operations in the Congo through a bond issue suspects can be treated fairly under sold to member governments. The government of Prime Minis-

in 1981 and 1985, the UN Secretariat sought permission to borrow commercially as several other UN specialized agencies are allowed to do, including the World Bank and the International Labor Organization. But it was turned down.

In addition, the secretary-genered to give the Irish attorney general al asked member states to provide an additional \$100 million to the veto power in determining whether UN Working Capital Fund. This fund, established in 1981 at a level

of \$100 million to meet financial emergencies, has been exhausted.

But payments to the Working Capital Fund are divided between member states on the same basis as the regular budget. UN officials said. Since the United States already is behind in its regular budabout half its \$212 million annual get more than an additional \$50 million to \$55 million from this source, these officials say.

The secretary-general also asked permission to "sell" the unpaid U.S. debt to other member countries for cash

This means that the UN would effectively ask other governments to pay the outstanding U.S. contribution, giving them in return noninterest-paying bonds that would be redeemed when the United States pays its arrears.

The defense ministers renerated Paris-Bonn Links Backed their earlier support for the U.S.-Soviet accord on banning missiles with a range of 300 to 3,000 miles

The United States is in favor of the growing French-West German military links and believes such moves will strengthen NATO, Mr. Carlucci was quoted as saying Wednesday in a report from Brussels by Reuters.

Responding to a question at a news conference after the ministers' meeting ended. Mr. Carluori said he knew of concern among members over growing military ties between Paris and Bonn.

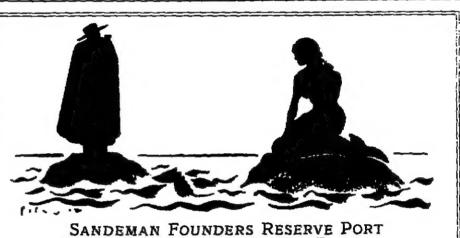

"My own view." he said, "is that those are perhaps desirable things to have happened." He added. "As far as we're concerned, the more cobesion there is in the European part of the alliance the stronger the

Prime Minister Margaret Thatcher of Britain said in November that the ties between West Germany and France could undermine NATO by creating a competing structure. France left NATO's miltary command in 1966.

Furthermore, Prime Minister Giovanni Goria of Italy has been quoted as saying that the French-West German links contravened the spirit of European defense cooperation.

Mr. Cartucci said, however, that he understood that the Paris-Bonn links were aimed at strengthening NATO.

"We don't get nervous about those things," he said. I know of no initiative under way right now that is directed at undercutting NATO.

No Longer Reserved To The English.

Do you Know Blerancourt, The Museum of French-American Friendship?

The Châicau de Blérancourt, a seventeenth century masterpiece by Salomon de Brosse is located 125 km (80 miles) north of Paris near the historic town of Compiègne (see map). The main body of the Château was destroyed during the French Revolution but four exquisite pavilion buildings remain in which the museum is housed.

The Blérancourt museum was founded by Anne Morgan, daughter of the financier J.P. Morgan, who bought the property in 1917 to shelter the wounded and homeless during World War I and sub-

sequently lived there for many years. While at Blérancourt, Anne Morgan collected works of art and documents reflecting the history of Franco-American relations from the American Revolution to the present day. In 1929 she presented Blérancourt and its collections

to the French and it was given the French national museum museum and was officially named the Museum of French-American Friendship. The exhibits, composed of paint-

ings, sculpture, historical memorabilia and

documents are extremely varied and every-

cally or artistically the close relationship

thing in the museum illustrates either histori-

between France and the United States over the

past two centuries. Among the most moving souvenirs on display are a Ford ambulance used by the American Field Service during World War I and the order for D-Day dated June 6, 1944, signed by General Eisenhower. The museum also illustrates the

rich cultural and artistic exchanges between the two countries, with exhibits from the many French artists drawn to America for inspiration as well as those American painters influenced by France.

Led by its dynamic curator Pierre Rosenberg, Blérancourt has exciting plans for development, including the expansion of the museum's art collection through the permanent loan of fifty paintings from the Louvre, the Musée d'Orsay and the Centre Georges Pompidou. This permanent exhibit will be housed in one of the pavilious renovated and expanded for the purpose. In the surrounding grounds, a botanical museum has also been created using American

species. It includes an arboretum of American trees selected for their autumn foliage

The French government has responded by increasing i subsidy but substantial outside funds will also be needed. A fully taxexempt US foundation

- American Friends of Blérancourt, Inc., has been established and the Florence Gould Foundation has contributed a special matching grant of \$500,000. Other leading foundations as well as leading companies with Franco-American ties also contributed: Dillon Foundation, Disney Foundation, Frederic Henry Prince Foundation, Mona Bismarck Foundation, Seth Sprague Foundation and Air France, Caron, Elegance Inc., France Telecom, LBM, Manpower,

Morgan Guaranty Trust Company of New York, National Cash Register France and Salomon

major early reductions in strategic offense.

Europe as a result of the treaty eliminating medium-range missiles, itself a pioneering accord that is due to be signed next week.

The Gorbachev Show and facing of facts — in a word, glasnost.

Restructuring is also necessary internationally. Economic conditions make the Skeptical, Hopeful traditional "imperialist" ways of gaining week in Washington will be less a stranger power impracticable. Nuclear weapons to Americans than any of his predecessors. mean that war can no longer be seen as an Just a few days before his summit visit, Mikhail Gorbachev was there for all to read in his new book, "Perestroika," and for all to extension of politics. Today's problems can

Herald Tribune.

only be solved cooperatively. There can be "either equal security for all or none at all." This severe assessment of Soviet problems must not be mistaken as a sign of weakness, Mr. Gorbachev hastens to add. If adversaries remain regrettably stuck in old thinking, Moscow will remain strong and match them. Nor does he make any pretense of eliminating communism. Perfecting, not rejecting, Soviet socialism is the goal.

The party line is drearily evident in his history of the division of Europe, the Soviet invasion of Afghanistan or emigration of Soviet Jews. Yet he has a remarkable understanding of foreign thinking. He challenges the notion that perestroiks is destined to be overwhelmed by the Soviet system. And he knows what threats worry the West: Khrushchev's "We will bury you," the theory of exporting revolution and his own new "designs" on the Pacific or his wily wooing of Europe. He tries to lay these concerns to rest.

His words are only part of all that must go into judging him. Whatever he says of anti-imperialism, his troops in Afghanistan say more. By crushing his protègé Boris Yeltsin for speaking too boldly against the slow pace of reforms, he demonstrates the actual limits of the Soviet leadership's tolerance. But undeniably his policies are also helping the Soviet people. And without new Soviet flexibility on foreign affairs, this summit meeting would never have come about.

Americans are naturally and rightly skeptical about Soviet oratory. They are also habitually hopeful, and eager to see if some-thing can be worked out. This is not a bad set of attitudes with which to greet Mr. Gorba-chev and what he is doing in his country.

- THE NEW YORK TIMES.

#### Not So Reassured

see in an interview on American television.

The reviews were quick and varied: canned

and candid, belligerent and believable, inspirational and manipulative. Such drama re-

views mean little. Worse, they hide what matters — the fact that the Soviet leader

allowed himself to be questioned without

conditions by Tom Brokaw of NBC, and the

to Mr. Gorbachev's policy of glasnost, or

openness. Events in his country put flesh on

his policy of perestroika, or restructuring. He has slightly opened the emigration spig-ot, given greater freedom to question the

party and the government, and faced up to

the severe economic difficulties that re-

strain Soviet military expenditures and

force a new look at Afghanistan.

There is no telling how durable his new policies are, or how far he will take them.

But they are not just words, not just theat-nics to be assessed by political drama critics. They represent tangible changes in Soviet society, improvements for the Soviet people

and grounds to explore the Soviet leader's

What are the messages Mr. Gorbachev wants Americans to hear? He offers an un-

usually coherent view of the world in his book. The Soviet economy, he writes, "had

fallen to a level close to stagnation." His

people were dispirited. There was "disrespect

for the law and encouragement of eyewash

and bribery, servility and glorification."

Only a thoroughgoing restructuring, includ-

ing the introduction of market incentives.

could alter this. The public must be involved

That requires unaccustomed telling of truths

foreign policy overtures with seriousness.

The television interview gives credibility

facts of change in the Soviet Union.

What is it that Americans want of Mikhail Gorbachev, anyway? An accomplished television manner? Personal affability? Professional competence? Command of the basic material? All these things were in evidence in the Soviet leader's interview with NBC. But they hardly slake American curiosity. We suspect that most people were peering at the broad, patient, intelligent face, sifting the words for a sign that behind the warming atmosphere of the summit there lies a firm basis for steadying a relationship that has seen all too many turns and perils. Is there such a sign?

Certainly Mr. Gorbachev contrived an impression that he wants a successful summit. On strategic defense, he stated a more modest position that may approach the more modest one the Reagan administration has been moving toward - positions that look to

On conventional arms, he hinted at a flexibility that could ease anxieties stirring in On Afghanistan, a test of Soviet interest in

reasonable global conduct, he kept alive the aning for a Soviet retreat that has always been the first requirement for a settlement. Now comes the real one. Still, most of us were looking for more

than positions on issues, central as these are. There is a feeling in the air that Ronald Reagan and Mikhail Gorbachev, unlikely pair, have created a promise whose realization depends greatly on the relatively young man currently at the Kremlin heim. On this score the interview was not so reassuring.

Mr. Gorbachev has the brainpower, but it has not so far been matched by the breadth of experience that might let him shed a characteristic Soviet provincialism. He has some cartoon ideas about America and a hesitation to address before a Western audience the very shortcomings of Soviet society that prompted his "restructuring."

To take Western interest in emigration as a trick to steal Soviet science would be laughable if it were not so wrong and mean. To present the Afghan crisis as "first and oremost" the result of outside interference is at best misleading and evasive. On television, Mr. Gorbachev can show

an undeniable restraint and poise, but these qualities tend to fade when the heat is turned on. That leaves American viewers to conclude that Mr. Gorbachev is tough - which no one doubted, but which is hardly enough in itself to sustain the improved relationship that both sides presumably are reaching for.

So much for the televised Gorbachev

## **Hypocrisy on Hostages**

State Department spokesman, kept a straight face when he attacked France on Tuesday for dealing with Iran to obtain the release of French hostages in Lebanon. Mr. Redman's criticism implied that the virtuous United States would never stoop to rewarding hostage-takers.

He spoke without any reference to the Reagan administration's folly in secretly selling anti-tank missiles to Iran in return for hostages. At precisely the same time, the State Department was lecturing Europeans on the need to embargo any such arms sales and to take a tough line on terrorism. It is hard to say which is more offensive, the hypocrisy or the silliness of the words Mr. Redman was obliged to utter.

What France is doing is certainly questionable. To get back two hostages, President François Mitterrand and Prime Minister Jacques Chirac have moved to resume repayment of a billion-dollar debt to Iran incurred

It's a wonder how Charles Redman, the before the revolution, and to allow the departure of an Iranian held for questioning about a wave of terror bombings. These concessions surely undercut avowals of the allied democracies at the Venice summit meeting last spring never to make such concessions.

But the French action was not surreptitious and can be openly debated. That was something denied to the American people and their elected representatives. President Reagan waved aside his own supposed scru-ples, as well as protests by his secretaries of state and defense, to swap missiles for the promised release of hostages.

A State Department official who declined

to be named made the right point: "We found out the hard way. What we did hangs over our heads, that's true. But we made it very clear we are never going to deal in that manner again. We learned our lesson." If so, why say so off the record, while making America look ridiculous on the record?

#### Poles Withhold Confidence

No one has suggested that the voting was not secret, or that the count was rigged. The Russians, even in the age of Mikhail Gorbachev, permitting a free vote in Eastern Eu-

rope? A milestone has surely been passed.
The fact remains that General Wojciech
Jaruzelski required a 51 percent majority
under the hitherto redundant Polish constitution, and failed the test. Poland can now go one of two ways: Either the unholy alliance between the apparatchiks and Solidarity will continue, with the union organization launching a new wave of protest - in which the general might be ousted by a hard-liner. Or Solidarity will take the more sensible

course of allowing the bruised but not beaten general to continue his policy of steady liber-alization, coupled with a period of longdrawn-out price rises (prices have become the single toughest challenge for Communist rulers everywhere) instead of a short, sharp shock. This seems a fairly dismal prospect for Poles, but they were at least asked.

- The Daily Telegraph (London).

The verdict of veteran dissident Jacek Kuron is both moderate and sage: The referendum result "does not mean that society is opposed to swift economic and political reforms; only that it has no confidence in those who are carrying them out."

- The Guardian (London).

# For a Return to Consensus on American Foreign Policy Washington — Partisan bickering among those who are supposed to be repolitical leaders has gone too far. It has come a greater threat to our nation them terms of the political processor of the political processor of the political leaders has gone too far. It has come a greater threat to our nation them terms of the political processor.

WASHINGTON — Partisan bickering among those who are supposed to be our political leaders has gone too far. It has become a greater threat to our nation than external pressures from the Eastern Bloc or internal weaknesses in the economy.

Throughout America, and indeed the world, perceptive people see what is happening to us. They do not doubt America's ability to meet difficult challenges once we unite with a common sense of purpose, but they are truly fright-ened that our leaders are unable to put political differences behind them in a common effort to support obvious national interests.

ince we arrived in the Senate about a decade ago, partisanship within the institution has increased alarmingly. Some partisan oneupmanship may be expected in domestic mat-ters, but it has spilled over into foreign affairs. In consequence, the stable and resolute foreign policy one should expect from the leader of the free world has been undermined by ongoing antagonism and turmoil between Congress and the executive branch of our government.

On the one hand, Congress is alarmed at the freebooting adventurism of a go-it-alone executive, as exemplified by the Iran-contra affair. On the other hand, the executive branch complains that Congress consists of 535 secretaries of state who cannot resist any opportunity to interfere with arms negotiations and to micromanage foreign relations. The result is that mutual suspicion and a state of flux have supplanted the predictability and sense of purpose which characterize a leadership position in world affairs.

Unlike parliamentary systems, our Constitu-tion divides foreign policy responsibility be-tween two independent branches of govern-ment. The president is the commander in chief, but Congress gives its advice and consent to treaties and to the appointment of ambassa-

dors. In recent times, Congress has confused this shared responsibility for foreign affairs with incessant and irresponsible tinkering. Routine authorization and appropriations hills have given members almost limites. bills have given members almost limitless opportunity to weigh in on everything from the maximum allowable height above sea lev-el for the site of the Soviet Embassy in Washington to the precise manner in which our forces are deployed in the Persian Gulf.

Last year the Senate conducted 20 roll-call votes on aid to the Nicaraguan contras, in an

An informal meeting could draft a statement of agreed foreign policy principles and explore a system for resolving foreign policy disputes.

unending effort to fine-tune the precise circumstances in which military or humanitarian assistance might be offered.

During recent consideration of the State Department authorization bill, 86 floor amendments were added dealing with such matters as the proper decorum for motorcades carrying foreign visitors around our nation's capital (e.g. no bonking) and the closing of our embassy in Antigua. Most of these amend-ments had received no committee consideration and little debate on the Senate floor. This fall, the Senate wrestled for weeks over

whether to invoke the War Powers Act in connection with America's presence in the

rersian Gun, and innany decided to deter for two months any judgment on the practice of reflagging and escorting oil tankers. That sort of vacillation typifies one of Con-gress's most egregious habits in the field of foreign policy. Whether it is in the Persian Gulf

or Central America, SDI or SALT-2 compli-ance, fundamental questions go unresolved. Everything is seen as subject to future debate. All issues remain on the table, or can be brought back to the table for further consideration. Even the much heralded compromise between Congress and the administration on how to interpret the Anti-Ballistic Missile Treaty was an agreement to put off a resolution

of the issue until next year.

The free world looks to the United States for leadership, but who can follow a leader that cannot decide where it is going and that sets out first in one direction and then in another? In light of the debacle of Vietnam and the Iran-contra fiasco, it is unreasonable for any administration to expect Congress to confer upon it the blind confidence of another Tonkin Gulf Resolution. Yet surely there is room for a modus vivendi between an autonomous executive and a linkering Congress. The time has come for rebuilding a truly bipartisan foreign policy in which congressional deference in the execution of policy would be offered in ex-change for legitimate consultation and trust in the formulation of policy. Congress would agree to restrain its backseat-driver activities in exchange for a role in planning the trip.

The beginning of a new bipartisan foreign policy might be patterned after the efforts of a Democratic administration and a Republican Senate in the post-World War II era. Then, Secretary of State George Marshall, Undersec-

American foreign policy. Their meetings formed the basis of Senate Resolution 239 the Vandenberg Resolution, which in turn set the stage for the North Atlantic Alliance and gave added support to the Marshall Plan.

In many ways the now aging and tangged consensus that emerged from those meetings. and played a dominant role in American foreign policy throughout the postwar era remains the closest thing we have to a foreign policy blueprint for today. Our generation has not had the will to create a new one.

We suspect that an informal meeting be were a limited number of administration and congressional leaders would be able to seforth a broad consensus on the fundamental objectives and principles of foreign policy that could provide the starting point for a new spirit of bipartisanship. What is needed is both a general statement of foreign policy principles in the manner of the Vandenberg. Resolution and an ongoing process for working out specific differences as they arise, but before they are ripe for legislative action.

If the views we have expressed make sense then the question remains: Where do we go from here? The answer depends on what response, if any, we evoke from the administra-tion and members of Congress. We would hope for an informal meeting of no more than a handful of administration representatives and interested members of Congress for the purposes of 1) drafting a statement of agreed 1 foreign policy principles and 2) exploring assistem for resolving foreign policy disputes. If the call is for volunteers to convene such

a meeting, then count us in. The Washington Post.

## While Washington Was Getting Tough, Moscow Was Tilting to Iran

By Jim Hoagland

"Destination Beirut or Tehran? With or without baggage? Window or aisle? Smoking or nonsmoking?" —A cartoon by Plantu in Le Monde (Paris) mocking

Wahid Gordji's pre-departure interrogation by a French examining magistrate.

DARIS - The American diplo-P matic campaign to isolate Iran and compel an end to the Iran-Iraq war is beginning to falter, under-mined by secret deals that Tehran has been able to strike in recent weeks with France and the Soviet Union. As painful as it is to see good in nything that benefits Iran's ayatollahs, this could be a cloud with a silver lining, It may force the United States

what it should be doing there. The American armada has been described in Washington as supporting the diplomatic campaign to pressure Iran to begin peace talks with Iraq or suffer sanctions voted by the Security Council. But these goals ap-

The Washington Post

Count me among the shrinking minor-ity that neither likes nor trusts Mikhail orbachev, especially after his hourlong televised exhibition of obsequious arrogance, cunning manipulation, evasive bullying and outright dishonesty.

"You cannot impose the minority's view on the majority," lectured the totalitarian. "Democracy is, after all, the rule of the majority." This from the head of a nation that crushes internal dissent and fustrates with tanks any move toward

The elections in the countries it rules.

"They appealed to us," he explained about sending 110,000 Soviet troops into Afghanistan to occupy that independent neighbor and rain death on tense of thousands of Afghanis "Meeting their of thousands of Afghans, "Meeting their desire, we introduced our limited Soviet contingent of troops." Such constancy in falsity is called the Big Lie.

He showed nothing but score for Americans who express concern about the families being persecuted for daring to ask to leave the Soviet Union, "What they're organizing is a brain drain. And of course we're protecting ourselves."

Forget all that, say Americans afflicted with Gorby fever. He has to take those positions to block the Kremlin hard-liners. He's ebullient, reformist, different from those nasty Soviet leaders of the past. Sure he's a tough Commie,

## Questions for Reagan

DOES the treaty actually eliminate the Soviet Union's INF missile infrastructure and capacity?

Is the Soviet-supplied data complete, consistent and compatible with U.S. in-telligence estimates of treaty-limited ystems and activities?

Does the treaty language have important ambiguities or loopholes or provisions that otherwise might lend themselves to future debates about meaning and interpretation? Is there an effective on-site inspection

regime for suspect facilities? If the answer to one or more of these questions is no, by finding it out now —
hefore you sign the treaty — it is possible
to seek adjustments with the Soviet
Union and avoid these issues becoming a matter of Senate debate and amendment.

So, if it comes to that, "Just say no." The United States will not accept another unverifiable arms control agreement.

From an agen letter to President
Reagan in The Washington Post by Frank
J. Gaffney Jr., until recently assistant
secretary-designate for international
security policy at the Pentagon.

WASHINGTON - The Gallup Poll and yes he cut out CBS because Dan Rather is too tough on Afghanistan, but Gorby's making real changes; by help-ing him, we help the cause of peace. That hopeful assessment, apparently held by most Americans, puts those of us who doubt the Kremlin's intentions in the role of "inreconstructed hawks" unwill-

ing to take a chance for peace. Look, maybe history is passing us by, and years from now we will be regarded as foot-draggers and sourpusses. But consider the possibility that our distrusting assessment has merit. Open your minds to be absented by Mr. Open your minds to the chance that Mr. Gorbachev and his KGB faction are deft tacticians whose purpose has not swerved from the long-

term Soviet goal of world domination. In that case, it would serve his purpose to buy time for economic restructuring of a corrupt system long dominated by the party faction. It would help him to stimulate high-tech trade, to launch Détente til to allow the U.S.R. to catch up technologically, just as Détente I en-abled it to pass America militarily.

Most important, Soviet strategic superiority would be achieved if the United States could be bluffed out of its goal of a States could be bluffed out of its goal of a muclear shield while Moscow keeps a significant advantage in missles — or secretly presses ahead with its own space defenses. Certainly everything the Soviet side has done to date has been aimed at preventing America from building its shield. Mr. Gorbachev has accepted proposals on the one area of equality, medium-range missles; but on the two areas in which the Russians are stronger in which the Russians are stronger strategic missiles and conventional arms
— he will not deal until he can break the
U.S. resolve to test "star wars" defenses.

Everything points now to excruciating pressure by the burgeoning Mr. Gorbachev on the debilitated President Reagan at the fourth summit conference, in Moscow next summer. Wishful thinkers in the United States, dovish candidates on the stump, U.S. negotiators with treaty-itis, a media enamored of Mr. Good Interview in the Kremiin — all will agitate mightily for removal of the "obstacle."

America's beaten-down president will probably find a face-saving way to fold, unless — a big unless — the sourpusses and naysayers at home, immune to Gorby lever, threaten to raise such a sussive ruckus that none of the treawould be ratified. Countervailing pressure from the distrusting, disliking right is essential to a solid deal.

That is when a suitable compromise can be reached permitting testing without secrecy and reducing missiles and armies.

If history proves that Americans who like Gorby were right to trust their hopes, nothing will have been lost by hanging tough. If the crowd that distrusts him trust cut to be right and makes its influence. tough. If the crown that districts influ-turns out to be right, and makes its influ-ence felt, then the greatest danger to world freedom will have been averted. The New York Times.

'Where are those medium- and short-range missiles when we really need them?'

## LETTERS TO THE EDITOR

#### In Defense of the Japanese

Regarding "Japan Is On the Right Side, out Chinese Are Mure Fun" (Nov. 20)

I was disappointed by William Sa-fire's diatribe against Japan. What kind of nonsense is this —our side/their side. friendly/grumpy taxi drivers — as social

or economic analysis?

As for the Japanese market being artificially propped up: There is a limit to how much and how long that can be

done, and the Japanese market, many predict, is heading for a big fall. Mr. Safire blasts the Japanese rice lobby, failing to mention that subsidized arming is an international phenomenon. He says Japanese construction costs are high because foreign competitors are ex-cluded. Perhaps, but is the American con-struction industry so open and corrup-tion-free that he is free to cast stones?

Far from scorning America's life-styles, as the writer claims, many Japa-nese — like most people around the world — seek to emulate Americans' prosperity. They do it by working long hours, at lower than American wages. with highly integrated teamwork and with fundamental respect for their work and the work of others. The result is higher quality and more innovative and less expensive products than Americans can buy from American industry.

> Letters intended for publication should be addressed "Letters to the Editor" and contain the writer's sig-Editor" and contain the writer sig-nature, name and full address. Let-ters should be brief and are subject to editing. We cannot be responsible for the return of unsolicited manuscripts.

This is the root of the trade imbalance. Americans would do better to address it than to declare a protectionist trade war. That could only hurt the American consumer, and ultimately industry, and cause deep suffering in Ja-pan. Or perhaps a poor Japan would be almost as much "fun" as China?

KAREN BERLIN ISHII.

#### Asia Has Office Games, Too

Office games are not confined to Hollywood (Letters, Nov. 11). Although I never visited Yasuhiro Nakasone's prime ministerial office, the office he had as an ordinary Diet member sported a door just 6 feet high (1.82 meters). Any gaijin, or foreigner, more than 6 feet tall either had to bow as he entered or suffer a sharp knock on the head. It was said by Mr. Nakasone's staff that the boss designed the door for precisely this result: Tall gaijins must either bow or be punished. South Korea's late President Park

Chung Hee stage-managed a visitor's bow in a different way. He would bow very deeply as a foreigner entered but then snap upright. A strategically placed photographer would take the formal picture just as the visitor returned the bow. Photos in the following day's newspapers showed the foreigner, who was usually tailer than Mr. Park, in a humble posture, with the Korean towering over him.

ANTHONY PAUL Hong Kong.

#### Germany Didn't Need It

Regarding "The October Revolution: Let History Pass Judgment" (Leuers, Nov. 25): R. Nayar manifests what he imputes

to William Pfaff, "lack of historical sense," by asserting that "the modicum of democratic reform represented by the Weimar Republic was owed in no small degree to the Bolshevik example." Nothng could be further from the truth.

The Weimar constitution, as shown by its history, was meant precisely to stave off Bolshevism. Its initiators and framers (Friedrich Ebert, Hugo Preuss, Max Weber, Friedrich Naumann, to name a few) were firm believers in parhamentary government and civil rights.
They were inspired by, among others,
the ideas of the 1849 Frankfurt Constitution, the Eisenach Program of 1891 of the Social Democratic party. Their opposition to the "Prussian militarist ethos" did not need assistance from the Bolshevik October Revolution.

JOACHIM von ELBE.

#### A Referendum of Sorts

Desperate men would rather kill and be killed in order to stay in a Yanqui prison than go back to Cuba — even though Fidel Castro promised that no reprisals would be taken. So much for the "fruits" of the Cuban revolution. JACK JOLIS. Brasschaat, Belgium.

#### A Missionary Approves

Thank you for printing Roger Mor-ris's "Evangelism is an Old Story That Needs More Attention" (Meanwhile, Nov. 3). As a missionary myself, I found the article to be extremely well written and its content excellent.

WENDELL L. GOLDEN. Kinshasa, Zaire.

## While the Russian Smiled, Cynicism Seemed Less Chic

By Tom Shales

or play a mean game of poker. "A Jennings on ABC. Neither CBS News nor ABC News has been able to obtain they." Monday night's exclusive NBC its own Gorbachev Interview. CBS was News interview, gave Americans their nurned down flat by the Russians. nost intimate and penetrating look yet at the Soviet leader—indeed, probably the Soviet leader—indeed, probably the Soviet leader—indeed, probably the Soviet leader with the Soviet le of any Soviet leader ever.

laxed and amiable in the interview, con-

#### MEANWHILE

ducted at the Kremlin on Saturday by anchor Tom Brokaw. The two men sat across a small table, with notes and two green teacups before them. The interview ran for an hour, with no apparent edits and no commercial breaks. What mattered was not that it contained blinding revelations, which it did not, but that it transpired at all, a fact that had to be some sort of significant stride.

had to be some sort of significant stride.

When, in response to questions about the coming Washington summit and the possibilities for reducing nuclear arms, Mr. Gorbachev said through his interpreter, "There are real prospects ahead of us," the idea that a nuclear treaty with meaning might actually be signed next week becam to sink in. Cynicism became week began to sink in. Cynicism became at least momentarily less chic. You look

for signs of hope; here was one.

Mr. Gorbachev proved a far cry from
the last really charismatic Soviet leader to get much American television exposure, Nikita Khrushchev, Mr. Gorbachev never looked irked or affronted by the questions. Even after Mr. Brokaw repeated one and he said "I think I have answered your question in toto," he was smiling.

It is a disarming smile. Maybe even
a disarmament smile.

Gorby fever!

Naturally there was much in what Mr. Naturally there was much in what Mr. Gorbachev said to inspire skepticism, if not outright hoots. It is hard to keep a straight face when a Soviet leader says, "We cannot, however strong we might be ... dictate our values or impose our way of life upon others." Or when he says, on the subject of Soviet Jews denied the right to emigrate, that "only those the right to emigrate, that "only those who cannot leave because of state security reasons" are denied exit visas. Apparently the most newsworthy item in the interview was his admission that

the Soviets are researching their own equivalent of Ronald Reagan's SDL This wasn't anything Mr. Brokaw cleverly pulled out of him. In fact Mr. Brokaw pulled out of him. In fact Mr. Broden
glossed right over the possibility of a
glossed right over the possibility of a
Soviet SDI while leading up to a question
on Afghanistan. Mr. Gorbachev had to
on Afghanistan. Mr. Gorbachev had to
own production. NBC was correct in

W ASHINGTON — He looked like and credited "an interview with Tom a guy who could tell a good joke, Brokaw of NBC News." So did Peter of the plant of

any Soviet leader ever.

Mr. Gorbachev seemed assured, rether end. NBC News has a promotion

machine second to none, and it was in high gear for the Gorbachev coup.

Mr. Gorbachev must know he is charming, because he attempted to because Mr. Beakers on a sumber of account. guile Mr. Brokaw on a number of occasions. He began one answer by saving.
"Mr. Brokaw, you will not be offended if I'm forthright and say that I assume that I have a very educated man sitting across the table from me, and a very well informed one." Mr. Brokaw lapped that up. Later Mr. Gorbachev suggested that a question about the Soviet farm crisis

had been slipped to Mr. Brokaw by President Reagan. Mr. Brokaw by and said, "No, this information is widely available in America to presidents and humble reporters alike." Humble re-porters? Gimme a breakski!

It really was a mutual bull session, when you come right down to it. But the chance to observe Mr. Gorbachev at close range carried undeniable fascination.

For NBC, however, the victory has its Pyrrhic side CBS was turned down, the Kremlin indicated, because Mr. Rather and colleagues have been too tough on the Soviets over their brutal policies in Afghanistan, NBC News must feel a certain stigms in being deemed the network that Moscow considered the safest. If only Mr. Brokaw had had the guts to

ask. Why did you agree to talk only to one network and not to all three?" He made a specific reference to NBC early in the hour, and near the end referred to the audience as "my American viewers," suggesting that the propagan-distic opportunities of the appearance were anything but lost on him. He must surely have read, too, about Mr. Reagan's skillful uses of television to obtain direct rger. :pen-rob-

VD 50 YEARS 460

#### The Two Faces of Vincent Van Gogh

CHICAGO (UPI) — When art aficionados view Vincent van Gogh's "Irises," they see a brilliant depiction in oil of a bed of purple-blue flowers. When investors examine the canvas, they see \$53.9 million. But when psychiatrists pore over the angry brush strokes and aggressive composition, they see a deeply disturbed individual.

At a meeting of specialists treating multiple personality disorders, Dr. John C. Curtis of Dalhousie University in Halifax, Nova Scotia, presented evidence that van Gogh suffered from either a split personality or a mood disorder so severe it often made him behave like two different people.

people.

Like the psychiatric prospectors before him, Dr. Curtis bases his hypothesis on a reading of five volumes of van Gogh's letters. A temperamental artist who spent much of his last two years in an asylum, van Gogh suspected something was wrong. He wrote to his sister of fainting spells and blackouts in which whole spans of time would be lost

#### **British Cold Unit Closes Without Cure**

LONDON (Reuters) - After 40 years of paying people to get sick, a group of British medical researchers is giving up its quest for a cure for the common cold. For the past four decades the state-funded Medical Research Council has given volunteers a two-week holiday at a former U.S. military hospital in the southwest county of Wilsshire.

The volunteers were paid a daily allowance and expenses for having a virus or placebo dropped into their nostrils, but only about a third caught

Now the Common Cold Unit, still without a cure, has announced it will close when its director retires in 1990, giving the council an annual savings of £500,000 (\$913,000).

#### True or False? Anatomy of a Smile

SAN FRANCISCO (NYT) — The false smile has been unmasked by at San Francisco, who is a specialist in applying the different muscle patterns in smiles that reflect in applying biochemical techniques research identifying the different muscle patterns in smiles that reflect true delight and those that mask displeasure. The research may be of particular importance to physicians or psychotherapists who need to know when a person is trying to hide pain or anguish. It holds interest for

anyone who wants to tell if a smile may be lying.

Dr. Paul Ekman, a psychologist who directs the Human Interaction
Laboratory at the University of California, has, with Wallace Friesen, developed a technique for analyzing patterns made by more than 100 face muscles as a person changes expression. With their method, they are able to determine precisely which of those muscles is at play when the face takes on a given emotional expression.

In the study, real smiles differed from those that hid unhappy feelings on two counts. In spontaneous smiles, the cheeks move up and the muscles around the eyes tighten, making crow's feet. In the false smiles, however, the face reveals traces of unhappy feelings behind the smile — for instance, a slight furrowing of the muscle between the eyebrows — that can be seen apart from the supposed expression of pleasure. The eyes will not develop crow's feet unless the smile is especially broad.

James C. Haggarty, chief of the human history section at the muse-um, said he could not comment on the circumstances of Dr. Loy's dismissal because of the appeal. He said that an independent team of university scientists had reviewed Dr. Loy's work before the dismiss-

Repeated attempts to reach Dr. Loy by telephone were unsuccessful. He is a visiting fellow at the Research School of Pacific Studies at the Australian National University in Canberra.

Doubts about Dr. Loy's research point up a thorny problem in the dissemination of scientific findings: when and how to alert other Finding the prehistoric human scientists of questions concerning blood seemed to vindicate Thomas the validity of previously reported

Only the few scientists familiar ity to inform other scientists if re-

Nature reported that new techniques developed by Dr. Loy "have led to the discovery of Neanderthal blood on a stone tool" from Iraq. The article, by Paul G. Bahn, who is a British writer on archaeology, made no reference to any doubts

about Dr. Loy's work. Scientists were impressed and excited by the first report of Dr. Loy's blood analysis. In a report published in the June 17, 1983, issue of the journal Science, Dr. Loy said he had identified the blood residues of animals surviving on ancient stone knives found in Canada. His method was to crystallize the hemoglobin in the blood and compare it with crystals prepared by the same technique from modern control blood smears of known

After this report, according to Dr. Lowenstein, Dr. Loy twice brought samples of the Canadian stone weapons to Dr. Lowenstein for an independent examination. The California scientist's testing technique produced similar, confirming results.

But the Nature article reported that Dr. Loy had abandoned his original hemoglobin crystallization method, replacing it with a system of 20,000-year-old Cro-Magnon we've always dreamed of."

## **Alzheimer's:** The Decline Of an Artist

LZHEIMER'S disease destroys minds, but there A have been few opportunities to study the disorder's impact on artistic creativity, one of the highest expressions of the human mind.

Now two California researchers studying the work of an artist believed to be afflicted with the disorder have found insight into the apparent course of the disease and the neurological basis of creativity.

The researchers, Dr. Jeffrey L. Cummings of the University of California and Dr. Judy M. Zarit of the

University of Southern California in Los Angeles, reported in the Journal of the American Medical Association on a painter who began to show signs of Alzheimer's disease in his late 60s.

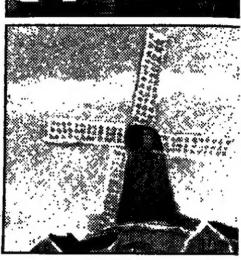

When examined at the age of 74, he could not remember words three minutes after they were addressed to him. He was able to copy complex abstract figures, but his artistic ability had deteriorated.

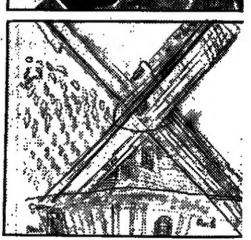

A painting completed at the time behavioral changes were first apparent shows good perspective, color sense and attention to detail. A second, done seven years later, shows deterioration of all of these qualities, but retains some artistry. In a third picture, a sketch of the same subject done two years after that, the artist could only copy gross details from previous

Testing over several years indicated that he first lost motivation, memory and organizational ability, while visual perception and the physical ability to draw

> Deterioration in drawing, from top: A windmill painted near the onset of Alzheimer's disease symptoms, the same scene painted again seven years later, and a sketch done two years after that.

## Data Comparing Contraceptives Is Misleading, Biased, Defective

By Gina Kolata New York Times Service

THE available data on the com- pers on contraceptive failure. A parative effectiveness of differ-

the way previous studies have been nant, making the data impossi done. The researchers said the data to interpret, Dr. Trussell said, usually reflect a bias in favor of the pill and the intrauterine device.

The finding is important because women make their decision on which contraceptive to use after weighing two factors: the side effects of a particular contraceptive and its presumed efficacy. The researchers, Dr. James Trus-

sell and Dr. Kathryn Kost of Princeton University, are calling for a new effort to examine the relative efficacy of contraceptives. Their report was published in the ournal Studies in Family Planning "Right now," Dr. Trussell said

available data on contraception is

"a giant castle built in sand."

There is no doubt that the methods vary somewhat in how well they prevent pregnancy. The pill is usually ranked first, followed by the IUD and then condoms, diaphragms, foam and other methods. The Princeton researchers said they wessed that the pill was, in fact, the best, but they said that no one knows how much better than the IUD it is, or whether both methods are more effective than some oth-

It is likely, the researchers said, that all the methods are extremely effective and they differ most in whether they are being used prop-erly and consistently. The pill, for instance, tends to be used consis-tently, while the diaphragm is used

It is more important for women to select a contraceptive they will use consistently than to choose one. according to published data on its efficacy, they said. Dr. Trussell and Dr. Kost said they arrived at their conclusions protect women whose cervixes were after reviewing the hundreds of pa-enlarged by previous childbirth.

One problem, the scientists said, ent contraceptives is misleading was that the studies usually failed and only marginally useful in help- to follow up on women who ing people choose which method to dropped out of the research. The use, according to a new study and a number of women lost to follow-up growing number of health experts. was frequently several times larger The new study cited defects in than the number who became preg-

> The studies also failed to determine the effectiveness of methods for ideal users - those who used

the contraceptive correctly and in every instance of sexual inter-

But there is at least one solid finding, according to Dr. Trussell and Dr. Kost. Recent studies of the contraceptive is used. contraceptive sponge indicate that it is far less effective for women who have borne children than for women who have not. In a study in the United States, 28.3 percent of the women who had had babies became pregnant in the first year, while 13.9 percent of the childless

A universal drawback of the con traception studies, the scientist said, is "selection bias." Women who are most anxious to avok pregnancy will select methods the believe are most effective, so the group using pills, for example, i always more motivated to use the method correctly than those using contraceptive foams. Even if the foam were just as effective as the pill, more women using foan would become pregnant.

Study drop-outs can also intro duce serious error, according to the researchers. Dr. Trussell and Dr Kost noted that "it is not uncommon for 15 percent of women sim ply to disappear from the tria without the investigators being able to determine whether or not the became pregnant."

Dr. Trussel noted that one study of contraceptive foams reported that only 4.3 percent of the women became pregnant in 20 months However, 16 percent of the women dropped out and it was unknown whether they were pregnant. Dr Trussell calculated that if just 26 percent of those drop-outs were pregnant, the failure rate of the foams would be double that reported by the investigators.

Dr. Trussell also noted that it was nearly impossible to determine how effective a contraceptive is if it is used at every instance of sexual intercourse. The reason, he said, is that there is no way of indepen-dently verifying how correctly a

The researchers were dismayed however, by old and unreliable studies of the condom, particularly since condom use is gaining again because condoms offer some pro-tection against infection by the AIDS virus.

"However, the concern is not so much with Stock Exchange failed to sustain a late afternoon advance Wednesday and closed mixed in

20 points less than 30 minutes before the close. Broader market indexes also rose slightly. The New York Stock Exchange index gained 0.71 to 131.21. Standard & Poor's 500-stock index added 1.45 to 233.45. The average share added 16 cents.

But declines led advances by about a 6-5 ratio. Volume was 148.89 million shares, down slightly from 149.87 million shares traded Tues-

The market has had a good tone throughout the day," said Ernie Rudnet, manager of block trading at Mabon, Nugent & Co. But "there is no conviction. It wouldn't take much for this market to get battered around. Nor would it take much to go forward. It's a very neutral

Mr. Rudnet said the market remained uncertain because "there are just too many things we don't control," including the outcome of the budget-reduction process in Washington, efforts to stabilize the dollar, moves by trading partners to stimulate their economies and con-

sumer spending.

"All of those things are on people's minds,"
he said. "Until we start eliminating some of them," the uncertainties should continue.

Eugene Peroni Jr., chief technical analyst at Janney Montgomery Scott Inc. in Philadelphia, said the market would probably "be in a confined range over the next few weeks. That narrow corridor will be defined by intermittent

#### GM, AT&T Pension Plans **Invest in Takeover Fund**

By ROBERT J. COLE

New York Times Service EW YORK—The pension funds of General Motors
Corp. and American Telephone and Telegraph Co. are
investing substantially more than \$100 million each in
a \$1.1 billion fund to finance friendly takeovers, offiwhich has raised the money since October's stock market tumble,
said Tuesday that it was problined by said Tuesday that it was prohibited by an agreement with the investors from identifying many of the participants or the size of

But Thomas A. Saunders, a managing director of the investment banking house and chairman of the fund, said there were

close to 50 major participants, including several that were providing more than \$100 miltion apiece. He declined to discuss GM's or AT&T's participation, although insiders said that employees of both companies would take part through their respective pension funds.

Overall, however, about 40 percent of the money comes from foreign institutions.

Like other buyout groups,
more commonly known as leveraged buyout funds because of
their huge leverage, or debt, the Morgan fund seeks to give
investors a high annual return — in Morgan's case, 40 percent.
Despite October's market slide, the outlook for leveraged

buyouts is viewed as particularly strong because the cost of buying companies has dropped so sharply.

Mr. Saunders said that 15 leading Japanese institutions were investing in the fund, including Industrial Bank of Japan, Nippon Credit Bank, Sumitomo Life Insurance Co., Mitsui Bank and

Credit Bank, Sumitomo Life Insurance Co., Mitsin Bank and Taiyo Mutual Life Insurance Co.

About 40 percent of the money, he added, would come from foreign banks, insurance companies and other big investors in Japan, Hong Kong, the Middle East and Western Europe. He said that several governments in the Middle East also were taking part, but that he could not identify them under the agreement Among the investors he was free to name, he said, were Chemical Bank Rankers Trust Co. Emitable Life Assurance

Chemical Bank, Bankers Trust Co., Equitable Life Assurance Society of the United States, Bank of Nova Scotia, Georgia Pacific Pension Fund and Morgan Stanley itself, which he said would invest \$100 million.

EVERAGED buyouts, also known as management buyouts because they almost always provide for senior executives to stay on as part of the deal, have become extremely popular in the last few years.

In a typical buyout, investors buy a company, financing most of the deal with borrowed money. They pay off the debt through the cash flow, often selling parts of the company to hasten repayment. They then resell the remainder to stockholders, thus taking the company public again — often reaping substantial profits in a relatively short span and with a relatively small cash

Since the Oct. 19 market slide, however, the market for new junk bond issues - a major financing vehicle in leveraged buyouts - has been weak. Analysts have attributed the weakness to concern that some companies might not have the cash flow to trim debt and that, if individual pieces of companies were sold,

they might not be worth so much as they once were. In a typical Morgan deal, Mr. Saunders said, the fund would make only equity investments in corporations it buys, that is, it will buy only common stock in the new company. The rest of the financing will come from banks, which provide the senior debt, and from junk bond buyers, such as insurers, pension funds and other financial institutions around the world, which buy the subordinated debt in the public market.

Donald B. Brennan, the head of Morgan's merchant banking department, said the fund would invest in deals involving as much as \$1 billion or more in basic American industries, occasionally creating new companies by combining parts from several sellers.

## U.S. Sales Of Homes Off 1.5%

#### **New House Prices** Fell in October

WASHINGTON — Sales of new homes in the United States fell 1.5 percent in October, the second consecutive monthly decline, while prices dropped sharply, the govern-ment reported Wednesday.

The Commerce Department said new single-family homes were sold at a seasonally adjusted annual rate of 657,000 units in October.

The department revised September sales upward to show a 2.8 percent decline from August levels to a seasonally adjusted annual rate of 667,000 units. It previously had reported a 5.2 percent drop in Sep-

The median price of a new home fell 5.5 percent to \$104,000 in October from the record \$110,000 in September. The decline pushed the median price to its lowest level since April, when it was \$96,500. In October 1986, the median home price was \$96,700.

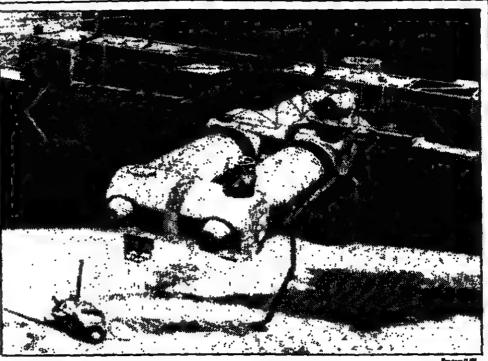

The average price of a new home fell even more sharply, dropping to \$122,400, down 10.1 percent from eptember's \$136,100.

The sales weakness came during a month when mortgage rates had climbed sharply, jumping to a two-year high of 11.58 percent on Oct. 16. Rates, however, have dropped by a full percentage point since then as the Federal Reserve has pushed interest rates lower after the Oct. 19 collapse in stock prices. For the first 10 months of the

year, new home sales were down 9 percent from the pace recorded during the comparable period in

The steep decline was concentrated in the Northeast and the South, Sales in the South fell 19.6 percent to an annual rate of 226,000 units. Sales were off 18.7 percent in the Northeast to an annual rate of 100,000 units.

In the Midwest, however, sales soared 47.4 percent to an annual rate of 112,000 units, and sales were up in the West by 16 percent to an annual rate of 360,000 units. (AP, Resters)

A conception of the space station above the Earth, with a shuttle on the lower left.

### For Space Firms, a Nebulous Victory 4 Win Contracts for U.S. Station, but Budget Cuts Loom

By Richard W. Stevenson New York Times Service

NEW YORK - The National Aeronautics and Space Administration has awarded contracts to four American companies to start building the nation's first permanent outpost in space. The project would cost at least \$14 billion and would be the last manned U.S. space program of this century.

The contracts were awarded Tuesday to the acrospace divi-sions of Boeing Co., McDonnell Douglas Corp., General Electric Co. and Rockwell International

Corp.
The station, as planned, would consist of a group of modules attached to a 350-foot (106-meter) latticework and powered by solar energy. It also would serve as a base for exploration of Mars

and other planets.
Orbiting 250 miles (400 kilometers) above the Earth, it would carry a crew of six to eight. The initial contracts for the space sta-tion are worth \$5 billion, but could go much higher if the program progresses as planned.

The agency awarded the con-

tracts despite considerable uncertainty about the willingness of Congress to finance the program at a time of mounting pressure to out the federal budget deficit.

"Our guess at this point is that there will be enough to go ahead with these contracts, but we don't really know how much," said James C. Fletcher, NASA's administrator, at a news conference at the Goddard Space Flight Center in Greenbell,

The contracts cover the cost of designing and building the station's components, but do not include other costs such as the 19 space shuttle flights required to boost the pieces into orbit.

The selection of the four companies capped years of intense competition in which winners and losers alike spent up to \$75 million each of their own funds on preliminary design proposals and engineering work. The big-gest loser was Martin Marietta Corp., which came away empty-handed after spending tens of millions on its bid millions on its bid.

Officials said the contracts would create 12,000 jobs around

the United States, concentrated mainly in California, Alabama and Texas. Significant work also is planned in Pennsylvania, Con-necticut and New Jersey.

Congress has not yet deter-mined how much to spend on the station following an agreement negotiated last month to reduce the federal budget deficit by \$76 billion over two years. Current plans call for the station to be manned and operational in 1996.

NASA has asked for \$767 million for the station in fiscal 1988, which began Oct. I, with spending to rise steadily to about \$3 billion by 1992.

Representative Bill Nelson, a Florida Democrat who is chairman of the House space science and applications subcommittee, said it "remains unclear exactly how much money NASA will re-ceive" in the current fiscal year. "We do know that NASA's budget will be very tight," he said. Whatever the outcome of this

year's budget process, financing is likely to remain a problem for the station in coming years. Crit-

## Shearson to Buy E.F. Hutton for About \$1 Billion

Compiled by One Staff From Disputches
NEW YORK — E.F. Hutton
Group Inc. will be acquired by
Shearson Lehman Brothers Inc. for about SI billion, the managing director of E.F. Hutton & Co. in London confirmed Wednesday.

The executive, Harry Romney, said by telephone that reports of a Shearson offer of \$29 to \$30 per share in a combination of cash and preferred stock were correct.

The merger will create the big-gest U.S. investment firm in terms of capital. Shearson and Hurton had resumed discussions recently after breaking off informal merger talks in November 1986. Mr. Romney said that for each of

their shares, Hutton stockholders would receive \$25 in cash and preferred stock in Shearson worth about \$5. He said Shearson, which is 69.6

percent owned by American Ex-press Co., had outbid Dean Witter Reynolds Inc., a subsidiary of Sears, Roebuck & Co. Merrill Lynch & Co., and Equita-

ble Life Assurance Society of America had expressed interest in acquiring Hutton. Neither Merrill Lynch nor Equitable had made an offer, he said, but both had said they would be willing to discuss an acquisition if merger talks fell through.

Mr. Romney said it was still un-clear how the acquisition would affect Hutton staffing and operations.

Once completed, the deal will leave Shearson with a retail brokerage force exceeding 12,000, making it one of the largest U.S. brokerage firms along with Merrill Lynch. The merger will greatly enhance its money-management operation.

Analysis have said Shearson likely would make large cuts in Hutton's staff of 19,000 because of a number of duplicate operations, while attempting to hold on to top stockbrokers and other key employees.

The 84-year-old Hutton has been plagued by inconsistent financial results in recent years, and by a major scandal in 1985 in which it pleaded guilty to 2,000 counts of federal mail and wire frand stemming from a check-overdraft scheme. Hutton indicated last year, after **Drexel Seeking** NYSE Ventures

BOCA RATON, Florida --Drexel Burnham Lambert Inc.
expects to reach agreement soon on a joint venture with the New York Stock Exchange specialist Carl H. Pforzheimer & Co., an executive of the investment banking firm said Wednesday.

"We have an application to become a significant specialist on the New York Stock Exchange," said Howard Brenner, senior executive vice president of Drexel. He also said that Drexel was exploring potential ventures or acquisitions with other specialist firms.

Pforzheimer is a specialist in 26 stocks, including those of Amoco Corp., Johnson Controls and Inland Steel Industries.

breaking off informal talks with Shearson over a \$1.5 billion merger, shears of over a 513 binton integer, that it wanted to remain indepen-dent. But continuing financial prob-lems, exacerbated by the stock mar-ket's October collapse and two severe bond market slumps this year, prompted the firm to seek a buyer of a major infusion of capital A number of major Wall Street

firms in recent years have sought outside investors or new parents in order to gain access to the massive amounts of fresh capital needed to meet heightening competition in the expanding global financial markets.

Shearson earlier this year sold a 13 percent stake in itself to Nippon Life Insurance Co. of Japan for \$538 million. In May, privately held Smith Barney Inc. was ac-quired by Primerica Corp. for \$750

Last year, Goldman, Sachs & Co. sold a minority stake to Japan's Sumitomo Bank Ltd. in return for an investment of about \$500 million, and Kidder, Peabody & Co. sold an 80 percent stake to General (Reuters, AP)

## Comecon Edging Toward Trade Accord With EC

By James M. Markham New York Times Service

BRUSSELS - After three decades of nearly uninterrupted hos-nility and estrangement, the trading bloc grouping the Soviet Union and its East European allies is mov-ing closer to establishing diplomatic and commercial relations with

the European Community. New moves to normalize the ties with the 12-nation EC began last year in Geneva, and were the first in six years. Previous talks had failed as East-West relations deteriorated and the two sides could not agree on terms of any EC-Comecon

The negotiations, expected to be completed as early as next year, have been a major foreign policy goal of Mikhail S. Gorbachev, the Soviet leader, and could boost trade across Europe's ideological

West Germany, eager to expand its exports, has been the most vigorous champion of the EC's opening to Eastern Europe. Already, under a peculiar 30-year-old arrangement, East Germany has handy access to EC markets, because its exports to West Germany are considered "inter-German

The West German chancellor, Heimnt Kohl, is known to want to complete the negotiations with the Soviet-led Comecon, formally known as the Council for Mumal Economic Assistance, when West Germany takes over the EC rotating presidency for a six-month period on Jan. I.

"It is the East that has moved to accommodate us and not the other way around," said Willy De Clerq. the community's commissioner for external relations, in an interview at its Brussels headquarters.

Mr. De Clerq noted that it was Mr. Gorbachev who in June 1985 chev had several reasons for abaneffectively reversed a long-standing Soviet policy of hostility toward the to shum and isolate the European European Community by having Community, an effort that Mr. De Comecon propose a normalization Clerq likened to a "guerrilla war."

#### U.S. Commodity Panel Postpones Approval of Stock Index Contracts

CHICAGO — The Commodity Futures
Trading Commission has indefinitely postponed the approval of applications for six new
stock index futures contracts because of concerns stemming from the stock market collapse.
Some critics have maintained that existing

Some critics have maintained that existing stock index futures and options contributed to the extreme volatility of the stock market on Oct. 19, when the Dow Jones industrial average plunged 508 points. On Oct. 20, trading in many stock issues was paralyzed as the market tried to adjust to the stunning losses.

The application delay could last months, said William Brodsky, president of the Chicago Mercantile Exchange, one of the markets affected by the CFTC action.

ed by the CFTC action.

ed by the CFTC action.

Bennett Corn, president of the Coffee, Sugar & Cocoa Exchange in New York, said federal-regulators were concerned about what procedures the exchanges would follow if trading were interrupted again on the stock market.

The Chicago Mercantile Exchange has applications pending for Japanese and British stock indexes and a composite of European and Asian stocks.

stocks.
The Coffee, Sugar & Cocoa Exchange has proposed an international market index based on 50 foreign stocks and American depositary

receipts.

The Chicago Board of Trade has applications pending to trade futures contracts with the Chicago Board Options Exchange on two stock indexes.

## Plessey Mulls Buying GEC Chip Unit

LONDON - A week after agreeing to buy the chip-making unit of Ferranti PLC, Plessey Co. said Wednesday that it was discussing a possible purchase of the semiconductor business of Britain's General Electric Co.

"We are holding talks with GEC, but it would be highly speculative to say more than that," said a spokesman for Plessey, the British lysts said that a merger of the Plessey and other peoples.

Plessey acquired Ferranti's semi-conductor business last week for f30 million (\$54.3 million). Analysts said that a merger of the Plessey and other peoples.

#### Saatchi Reports 77% Increase In Pretax Profit

could be worth up to £30 million, the analysts said, while the combined units of Plessey and Ferranti are valued at about £125 million.

In late trading on the London Stock Exchange, GEC's shares rose 3 pence to 158 pence while Plessey's were unchanged at 127.

Lack Summerscale, an electron-LONDON - Saatchi & Saatchi Co., the world's largest advertising holding company, reported Wednesday that pretax profit for its fiscal year soored 77 percent to £124.1 mil-Jack Summerscale, an electronlion (\$225 million at current ics analyst with Barclays de Zocte Wedd, said that it would make sense for GEC to sell off its semirates) from £70.1 million a year

Revenue for the year ending Sept. 30 was £3.95 billion, a 90 ent increase from £2.08 billion a year earlier. The results included the Ted Bates Worldwide Inc. advertising agency and other recent acquisitions.

Saatchi shares soared 21 pence to 394 pence in morning trading on the London Stock Exchange, then settled back to close at 379, up 6 pence from Tuesday's close. Market forecasts for 1986-87 pretax profits had been around £117 million.

Market and industry sources and uncertainty over Saatchi's intentions for expansion had continued since September, when the company made unsuccessful merger approaches to Midland Bank PLC and the merchant bank Hill Samue Group PLC. Saatchi had put out word that it was eager to diversify into financial services.

#### Southland Revises \$1.5 Billion Financing

DALLAS — Southland Corp. has filed a revised plan for a \$1.5 billion public debt and warrant offering to finance a merger with the

founding family.

Southland is the parent of the 7-Eleven convenience store chain.

In a filing Tuesday with the Securities and Exchange Commission, Southland said the offering included \$350 million of senior subordinated notes due in 1997; \$402 million of senior subord

ed discount notes due in 1997; \$500 million of subordinated debentures due in 2002, and 946,945 units consisting of an aggregate of \$947 million of junior subordinated dis-count debentures due in 2007 and 26.14 million warrants to purchase common stock.

Proceeds from the sale will provide a portion of the financing necessary to complete a merger acqui-sition of Southland by shareholders of JT Acquisition Corp. JT Acquisition is an affiliate of The Thompson Co., the investment firm of

Southland's founding family.

Southland withdrew a similar \$1.5 billion offering Nov. 10 in a move attributed in part to a decline and Safeway, bought in January for in the market for the high-yield, £681 million, produced an operat-

high-risk issues known as junk and is the largest independent gas-bonds. But analysts also said then that there was a more fundamental southland also said it was prothat there was a more fundamental problem: that too many bonds were backed by a company with

investment firm owned by its too little profit. Southland is the world's largest convenience retailer, with 8,296 7-Eleven and other units, as well as the Southland Foods Divisions' six food centers. It owns a 50 percent interest in Citgo Petroleum Corp. Quik and 1,000 7-Eleven stores.

ceeding with previously announced plans to sell off nearly all its assets except for the 7-Eleven stores and its Citeo holding. Those assets include Chief Auto Parts, Tidel Systems, its dairies group and snack foods division. Reddy Ice, Southland Chemical/Food Labs. Movie-

#### **Argyll Group Pretax Profit Nearly Doubles in Fiscal Half**

LONDON — Argyll Group PLC reported Wednesday that pretax profit for the six months to Oct. 10 was £75.4 million (\$135 million), almost a doubling from £38.2 mil-

lion a year earlier. Revenue for the British supermarket chain was £1.69 billion, up 59 percent from £1.06 billion in the comparable period of 1986.

outhland's founding family.

The closing of the sale of the counties is subject to completion f the merger Goldman Sache h. 112 percent to £80.8 million. The securities is subject to completion of the merger. Goldman, Sachs & exceptional items included costs of Co. and Salomon Brothers Inc. are the first phase of reorganization acting as underwriters for the offer-relating to the group's acquisition the British arm of Saleway Stores inc.

ing profit of £75.9 million, up 34 percent from £56.5 million a year earlier, the company said.

Last year's results, for 26 weeks

ended Sept. 27, 1986, were restated on a 28-week basis comparable to this year's results.

Argyll said that current trading was in line with expectations and that the outlook was encouraging.

"For next year and beyond, the application of Argyll's operating efficiencies and Saleway's strong consumer franchise to the fast growing Safeway store base provides the opportunity for subtial quality earnings growth," Ar-

lion, but analysts think the total

value of the contract eventually will

be about \$4 billion.

#### To Be Deutsche's Sole Chairman

Herrhausen Set

DUSSELDORF - Alfred Herrhausen, co-chairman of Deutsche Bank AG, will take charge of West Germany's largest bank when the other co-chairman, F. Wilhelm Chris-tians, steps down in May, Mr. Christians said Wednesday.

The decision, which must be approved May 11 at the annual shareholders meeting, is a departure from the policy of having two chairmen, which began with the departure of Josef Abs as chairman in 1967, a bank

Mr. Christians, who is at the job's mandatory age limit of 65, has presided over a decade of record profits at Deutsche Bank, whose power and influ-ence extend throughout the West German economy.

Mr. Herrhausen, 57, a man of forceful intellect and conservative political views, became a full member of Deutsche Bank's board in 1971, and cochairman in 1985, replacing Wilfried Guth.

Chancellor Helmut Kohl often seeks Mr. Herrhausen's advice on economic matters.

#### Pilots, in Blow to Unions, Settle With Pan Am

NEW YORK — rau runchen world Airways has struck an 11th-hour deal with its pilots that could hour deal with its pilots that could NEW YORK - Pan American undermine a yearlong attempt by some of the airline's unions to find est a buyer for the carrier and replace its management.

According to union sources, Pan Am and its pilots' union reached egreement Tuesday on a four-year contract that would give the pilots a major stake in the company in - return for the \$55 million a year in To g concessions that the company had been seeking.

In making the agreement, the pilots appeared to be breaking with the union coalition that persuaded the Pritzker family, owner of Braniff Inc., to make an offer for Pan American World Airways, a unit of Pan Am Corp. The agreement came just before

the board was to meet to consider

## Dollar Lower in New York Trading

NEW YORK - The dollar fell Wednesday in New York against major foreign currencies, hurt by a report from unnamed sources that

White House was unwilling to take action to support the currency. The dollar was dealt a bad blow late in the afternoon when traders heard a report quoting an unnamed senior administration official say-ing the White House is content to French Iranes from 5.6088. let the dollar fall to whatever level it goes to," said Gopalan Nair, \$1.8120 from \$1.8185. head foreign exchange trader for Drexel Burnham Lambert Inc.

Mr. Nair said the report contra- as a gesture of goodwill toward the dicted a statement by President Ronald Reagan in mid-November that the White House was preparing to take action to help brake the dollar's slide.

1 In New York, the dollar closed at name of the .6460 Deutsche marks, down from to of Icana 1.6555 at Tuesday's close; at 132.45 yen, down from 133.40; at 5.5930 De Con rench francs, down from 5.6310. and at 1.3465 Swiss francs, down e Their Pole

The British pound also gained against the dollar, closing at \$1.8200, compared with \$1.8105.

Earlier in London, the dollar closed steady to slightly higher in volatile, nervous trading dominated by speculation about West Germany's attitude toward international economic cooperation,

Attention was also firmly focused on a meeting Thursday of the policy-making committee of the cuts scheduled for 1990, but the Bundesbank, which currency markets expected would offer some indication of whether West Germany would cut its 3 percent discount

1.6530 DM, up from 1.6480 DM on change in attitude," said Ernest-Tuesday, and at 132.80 yen, barely changed from 132.90. The U.S. curposed from 132.90. The rency also edged up to 1.3525 Swiss not think it's pure window dressing amount of money involved will not

The British pound slipped to

Dealers said a Bundesbank discount-rate cut would be interpreted United States, which sees expansive action by other members of the Group of Seven major industrialized nations as a vital complement of its own budget-cutting package.

A rate cut also would pave the way for a meeting of the Group of

economists say. But doubts crept in during Wednesday's trading when Fi-nance Minister Gerhard Stoltenberg of West Germany appeared to rule out an early Group of Seven meeting, and when the Bundes-

bank announced that it would not hold a news conference after Thursday's meeting, dealers said. The fact they're not holding a press conference is not a good sign" said one dealer with a U.S. bank.
But they may sill amounce something "since the control bank does thing," since the central bank does

not always hold news conferences when it shifts monetary policy. In earlier European trading, the dollar was fixed in Frankfurt at 1.6575 DM, up from 1.6536 Tues-day, and in Paris at 5.6330 French francs, up from 5.6195. It closed in Zurich at 1.3530 Swiss francs, up from 1.3525. (Resters, UPI)

#### **Gold Prices Ease** By \$2.50 in N.Y.

NEW YORK - Gold prices

eased Wednesday as dealers sold on expectations that a cut in West Germany's discount rate would boost the dollar. On the New York Commodity Exchange, February gold fell \$2.50 from Tuesday's close,

to \$493.70 an ounce, after hit-ting a high of \$498.80. On London's spot market, the metal closed at \$489.75 an ounce, down from the \$492.25 finish on Tuesday, but above the opening of \$488.55. Some traders traced its rise to shortcovering after overnight losses in Asia. Dealers said the metal appeared to be confined in a tight range, with resistance at \$493 and support at \$487.

## Markets Focus on Odds of Bundesbank Rate Cut

By Ferdinand Protzman

FRANKFURT - The Bundesbank, West Germany's central bank, is expected to cut its discount rate Thursday to 2.50 percent from 3.0 percent, senior Frankfurt banking sources said

The cut in the rate is designed to help prop up the dollar and send a strong signal of West Germany's willingness to take firm action to

promote global economic stability, they said.

The Bundesbank, however, gave no sign that
it would cut the rate, and some analysts said its intentions were not as clear-cut as they had seemed earlier in the week.

The sources said the Bundesbank's policysetting council would cut the rate to a record low of 2.50 percent at its biweekly meeting on Thursday. The discount rate, the fee charged on banks' borrowing from the central bank against securities as collateral, is also the benchmark

rate for commercial lending.
Reports of a split within the 17-member council on the discount rate have been exagger-

ated, the sources said. "While there are council members who question whether a rate cut is warranted based on

many's largest commercial bank, said, "It may be that this package is

along the right lines, but whether it actually will have the desired effect

is an open question."
The West German government

adopted similar measures in 1981

that were only partially successful

he said. "While the 21 billion DM

volume of the program is a high

sum, it will be spread over three years," he said, "and only 6 billion

will be made available to munici-

palities, which used less than 50

percent of the money made avail-

He said the West German econo-

able to them in the 1981 plan,

DM will go to industry."

The rest — or 15 billion DM

pure economics, they are in broad agreement that the current world economic situation is precarious and that political and psychological factors are dominant," said a source close to the Bundesbank. "They do not operate in a politi-

cal vacuum. The intent is to send a firm, clear signal to the markets and their trading partners that West Germany will do whatever is necessary to

help keep control of the situation." The move to cut the rate also would empha-size West Germany's desire for a meeting of the seven leading industrial democracies, he added. "The feeling is that West Germany can go into such a meeting now and say to the Americans, We have done what we can. Now we need action from you."

Stable exchange rates are also vital to West German economic growth, he said. "It is clear:
Our economy must export. Companies can
cope with a low dollar, but not with a dollar/ Deutsche mark rate that is constantly shifting." Senior banking sources said a rate cut would

remove any obstacles to a meeting soon by the Group of Seven industrial nations. West Germany is pushing for a meeting in hopes that it would yield a pact similar to February's Louvre

accord, which stabilized foreign exchange rates

for about six months.
Other sources said the central bank was aware that a discount rate cut was likely to have only a fleeting positive effect on the dollar.

"A discount rate cut has been factored into current exchange rates," said a senior foreign exchange dealer at a Frankfurt bank. "But these are the steps that must be taken to safe-

guard the global economy."

But Alfred Herrhausen, co-chairman of Deutsche Bank AG, West Germany's largest commercial bank, said Wednesday that "a halfpercentage-point cut in the discount rate would be desirable."

e destratore. Mr. Herrhausen said he was skeptical that purely monetary measures could bring the situation under control. "There is no high road out of this crisis," he said. "We need multinational action and a new international accord."

Swiss Cut Expected to Follow The Swiss National Bank may match any discount rate cut by the Bundesbank as a ges-ture of international solidarity and to prevent the Swiss franc from rising against the mark, Swiss analysts quoted by Reuters said in Zu-

#### Nippon Life Sees **Dollar Lower Yet**

Agence France-Presse

TOKYO — Nippon Life In-surance Co., Japan's largest pri-vate institutional investor, predicted Wednesday that the dollar would fall to 125 year next year, mainly because of Japun's huge trade surplus.

Japan's merchandise trade surplus will fall only slightly, from \$92 billion in the year end ing March 31 to \$89.1 billion the next fiscal year, Nippon predicted in its 1988 forecast.

Nippon Life also said it expected U.S. economic growth, as measured by gross national product, to fall from 3 percent in calendar 1987 to 1.8 percent

#### Japan Rules Out Rate Cut lows against the British pound and

TOKYO - Satoshi Sumita, the governor of the Bank of Japan, said

Wednesday that the central bank would not lower its discount rate further in accordance with any cut in West Germany's rate. "Our discount rate is the lowest

in advanced countries. We do not think a further cut is necessary in relation with other countries," Mr. Sumita said at a news conference. The Bundesbank, West Germany's central bank, is reportedly planning to cut the benchmark dis-

count rate from 3 percent to 2.5 percent on Thursday to help support the ailing dollar. Japan's discount rate, the fee still undecided."

SQUANDERING EDEN: Africa at the Edge

By Mort Rosenblum and Doug Williamson. 291 pages. \$19.95. Harcourt Brace Jovanovich, 1250 Sixth Avenue, San Diego. Calif. 92101.

Reviewed by Barry James

LUSIVE behind "numbing statistics of dubious reliability," a great tragedy is in the making, according to the authors of this polemical and topical survey of Africa.

Because too little thought is given to balanced long-term development, and too much cash is poured into schemes that often benefit the right but leave the season. the rich but leave the poor with "plundered land," the authors argue that "huge tracts of Africa are dying in stages" as rangeland deteri-orates, forests get pushed back and wildlife species are driven from their habitats. Skewed development is made worse by corruption on a massive scale and the inexorable pressure of

master scale and in medicable pressure of unchecked population growth.

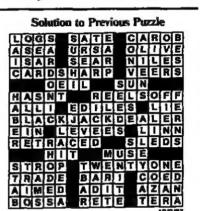

"The victims are not only the individuals who wither away waiting for food, but also entire societies, populations of game, prey and predators, and the land they lived on." Man is the cause, the authors insist, not nature.

Mort Rosenblum, a senior Associated Press correspondent who knows Africa intimately, pooled his notes with Doug Williamson, a scientist working in the Kalahari region of southern Africa. "Over two decades," they write, "each of us had seen similar things and drawn the same conclusions."

They argue that African societies have gone

astray because they have ignored native talent and respect for the environment in favor of imported and frequently misguided solutions to their development needs, be it Marxism in Ethiopia or International Monetary Fund medicine in Ghana.

African farmers can grow grain in soil "a Nebraskan would use for cement," and African market women possess keen capitalist in-stincts, yet such skills are too often ignored or underexploited, the authors say. Instead, "out-siders and African leaders alike have treated the people on whom development depends as passive bystanders. Outside assistance has

overwhelmed some of their skills, and the

young are not learning them.

The authors do not argue against emergency food aid when people are starving, but they say
that all too often "ill-timed food aid floods
African markets, just as African farmers harwest their crops," thus driving down prices,
Wealthy countries find it more expedient to give away food they don't need than to help Africans grow and, above all transport their

There has been no shortage of aid. In the lo own food. years ending in 1986. Western donors sent \$116 billion to sub-Saharan Africa. But much of it was money wasted. "A lot went hack 20 donors, paid out to experts for dubious advice," the authors say. "Africans stole some and wasted more. Some of it went to badly conceived projects which ruined good land and dispersed productive societies and even more went to proper to account the projects. went to prop up corrupt, tyrannical, or simply inefficient governments.

That said, there is little left over for worth-

while, long-term development, and the conti-nent's environment meanwhile decays for lack of cash and commitment. One example among many: In Madagascar — once forested with tall hardwood trees, now "the most eroded place on earth," according to the World Bank — the national Water and Forest Administra-

the national Water and Forest Administra-tion disposes of an operating budget of only \$900 a year after salaries have been paid. The book is generally scornful of Africa's ruling elite, noting that "since the wave of independence, not a single group in any coun-try has stepped aside for an elected opponent." African rulers turned a blind eye "when a string of tyrants massacred three quarters of a million Ugandans" and lavish benefits on themselves while running formerly tich counmillion Ugandans" and lavish benefits on themselves while running formerly tich countries into the ground, the authors say. Ethiopia's Marxist regime blithely condemns South Africa for imposing a curfew, clamping down on the press and holding people up to six months without trial, yet "you can be shot for breaking curfew in Ethiopia. Prisoners have been waiting 12 years to see a judge for the first time. Every word in the papers is rigidly controlled."

If African governments have failed; if the If African governments have failed; if the 80,000 foreign experts in Africa have failed; if Western donors and international organizations have failed, is there any hope for a threatened environment? If all the experts were to go home, would things get suddenly better? If corrupt elites were swept aside, who or what would take their place? Rosenblum and Williams explained on sporting the problems, but frams are long on spotting the problems, but perhaps short on supplying possible solutions and answers. But they would argue that this is not their job, nor is it the job of other outsider?

ligo the Co

or suggest how Africans should run their lives.
"It is time outsiders stepped back and let
Africans take the lead," they say. Help is
needed, not interference. Aid is needed not in
short bursts when famine tugs the heartstrings
but stradiby and concesseable court that warms to but steadily and consistently over the years to "help Africans regain their confidence, pick up their own rhythm and rescue their own future."

Barry James is on the staff of the International Herald Tribune.

#### **BRIDGE**

By Alan Truscott

F an intermediate player is A considering buying a bridge book, he is entitled to ask, "How much will it tell me that I did not know before?" The answer may be, "Nothing, a little, quite a lot or a great deal." One of the rare books that get the "great deal" rating is "100 Winning Bridge Tips" by the Australian expert Ron Klinger. The reader who wishes to verify whether Klinger's tips would help should cover the East-West hands in the diagram and plan the play in six no-trump. East has opened with a weak two-spade bid, and the spade ace is held up for a round. What next?

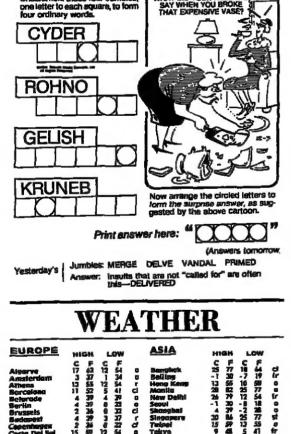

If you plan simply to cash your club winners, you have missed the point and should study Klinger's tip: "When running suits like K-Q-J-x opposite A-10-x-x, you can choose the order in which the

Dec. 1

winners are played, and may red eight to suggest a double-be able to force the opponent ton. And West will count careshorter in the suits to make two fully and save his hearts. That or more discards before receiving a useful signal from his particular Klinger tip is really ing a useful signal from his particular Klinger tip is really ing a useful signal from his particular Klinger tip is really ing a useful signal from his particular Klinger tip is really ing the experts, many of whom particular Klinger tip is really ing the experts. The other 99 to the clubs. answer. If anybody is going to the same have a discarding problem, it must be West, for East cannot tirely suitable for players of be long in both red suits as well mo

as spades. So we must start with the king, queen and jack of clubs. West has no trouble yet. He throws a diamond. Bu he will have to guess next time with no substantial clue, whe the fourth round of clubs is le from the South hand. There a slight clue pointing in the wrong direction. With his act wrong direction. With his active doubled two spades for take out, in the hope of finding heart fit. So West is quite likel to throw a heart and allow the slam to make. But if South misplays the clubs and leads the fourth round from the dummy, East can throw either

## Becker Has New Slant for **Masters**

By Peter Alfano New York Times Service

NEW YORK - It was good to be in Leimen, West Germany, Boris Becker said, where he could sample his mother's cooking and spend time with friends he rarely sees.

In the past three years Becker was swept off his feet in a whirlwind of events that were often beyoud his control. Returning home en occasion gives him a chance to eatch his breath and reflect on a relatively brief but tumulmous tennis career.

· On Nov. 22, Becker turned 20. Many people his age have never been away from home. Becker. though, is already an experienced world traveler, better known in his country than the chancellor, a subject of intense scrutiny and great expectations

He doesn't pine for the days when he was just one of the boys at the local tennis club. But he does appreciate how uncomplicated those times were. Falling into an old routine two weeks ago - even temporarily - was refreshing. "When I'm together with the grys, it gives me a chance to think about what has happened to me the last lew years. I think, What did I do to get there?"

What he did was extraordinary. He won Wimbledon in 1985, at 17, becoming the youngest men's singles champion. He won again the next year, solidifying his position as a superstar and arguably, the as a superstant must be world.

It was too much success, too

It was too much success, too soon, but no one apologizes for winning Wimbledon. "If I could choose, though," Becker says now, "I would win Wimbledon for the first time at 20. I think I would have didn't change last week, when he enjoyed it more and dealt with it

rewarding and exciting, but on occa- cold and an injured knee. sion also humbling and disappointing. Becker is ranked fourth in the has tried to be philosophical. He

year has not been wasted.

den, he was facing questions about crime. There is a period of life when knock him off his pedestal. his comeback plans for next year.

He has won only three tournaments in 1987. He was a semifinalist in the Australian and French Opens, but lost in the second round at Wimbledon and the fourth round in the U.S. Open. Wimbledon was especially crushing. "I'm not the Wimbledon champion anymore and you can't be happy about that when you're a tennis player." Becker said. "But it's not so much that I miss the wins as it is I hate to be a second-round loser."

He played without the guidance of a coach for most of the year, having dismissed Günter Bosch last January. He was involved in a political controversy when officials of the United Nations Children's Fund dismissed him as its goodwill ambassador because he would not sign a statement saying that he would not play in South Africa.

Becker has also been nagged by aches and pains, which contributed to a loss of enthusiasm. His luck was beaten in the third round of the Young Masters tournament near The past three years have been his hometown. He complained of a

In the face of adversity, Becker 20-year-old — but at the Masters the responsibility of living his life problems in privacy. He remains a tennis balls pretty good."

tournament, which began Wednes-day night at Madison Square Gar-downs this year, he said: "It is not a man news media there have tried to

you have to see the other side. You "I couldn't understand that at all in the beginning," Becker said, "I can deal with it now. The people know what it feels like to be on top of the world. Being No. 4 is not so en a backward step. Entering the Masters last year he was No. 2, and feeling heady shout the means a lot to the average means a l feeling heady about the coming works 9 year. "Everybody expected me to be for me."
No. 1," he said, including himself.

The U

The UNICEF experience taught Improving as a player, however, represents only one aspect of maturity, Becker said. That is why the him to be more careful about the choices he makes. Becker has spoken out against apartheid in South Africa. He has said he does not "Twe learned so much this year about life," he said. "I realize that nothing good comes easy. And I for having been to that country realize that, maybe, I don't want to with a junior team at the age of 16.

make it to the top too quickly. I might not stay there very long."

Becker cited the problems that Björn Borg and John McEnroe had street becaming No. 11 are also as a junior team at the age of 16. "I am more than a tennis player," he said. "I am an ambassador of sports, like Maradona and Mike Tyson. We stand for something I after becoming No. 1. He said he think that politics is one thing and thought that Ivan Lendl's slow but sports another, but people like persistent climb insured a longer sportsmen, not politicians. They stay at the top. Only three years think we can do more."

ago, Becker would not address the How he will do this week is any subject of burnout, saying his ca-one's guess. In the round-robin rear was only starting. one's guess. In the round-robin phase, Becker will face Jimmy Con-"Now, I am kind of an oldie," he said with a laugh in his voice. "I friday and Lendl on Saturday.

"I think I can play like I should," "I think I can play like I should,"

With a nation watching his every he said. "I'm eager and in a different ing. Becker is ranked fourth in the has tried to be philosophical. He move, however, Becker does not groove. I want to show people that world—quite an achievement for a does not want to be burdened with have the luxury of working out the guy in Leimen can still hit a few

## Tyson to Defend Against Holmes Jan. 22

NEW YORK — Larry Holmes, a 38-year-old grandfather, says it's time to teach 21-yearold heavyweight champion Mike Tyson some

Holmes, who held the heavyweight title for more than seven years, will end a 21-month layoff when he challenges Tyson Jan. 22 in Atlantic City, New Jersey. When the two met at a news conference Tuesday to announce the fight. Holmes was upset at what he considered a

snub by Tyson.
"I always shake hands with my opponents," said Holmes, who is 48-2 lifetime. "When I reached out to shake Mike Tyson's hand, he pulled away. I'm a people person, I'm a people's champion. I know how to treat people and when Mike Tyson learns that he'll be a great

Tyson, 32-0 with 28 knockouts and the youngest-ever heavyweight champion, said he re-fused to shake hands "because I wanted to." He added: "I don't like Larry Holmes."

But he did praise Holmes as a fighter. He said it is unfair to liken Holmes to other heavyweight champions — such as Jack Johnson, Joe Louis and Muhammad Ali — who failed miserably in comebacks.

"I take the fight seriously," Tyson said. "You can't compare Holmes to those other fighters because they no longer had anything to offer their opponents. They were shot. Larry Holmes can still fight. He went 15 rounds in his last fight and he won. They just didn't give it to him."

That was a 15-round split decision loss to Michael Spinks on April 19, 1986. Spinks had

taken Holmes's International Boxing Federa-tion title with a close decision in their first bout the previous September.

Holmes is expected to earn \$3 million and Tyson at least \$5 million for the scheduled 12-

Tyson said the Holmes fight should be tougher than his last bout, a seventh-round knockout of Tyrell Biggs Oct. 16. "You can't compare a guy who was a world champion for over seven years to a guy who only won an Olympic medal," he said.

Tyson became the unified heavyweight champ when he won a 12-round decision over Tony Tucker Aug. I to take the IBF belt. He won the World Boxing Council title from Trevor Berbick last year and the World Boxing Association crown from James Smith in March.

Consider the case of NBC-TV and Bobby Knight.
The network holds the rights

to the 1988 Summer Olympics and has been searching for an additional basketball commentator. Among those it has contacted is Knight, the coach of Indiana, the defending national collegiate champion.

The championship was the third Knight has won at Indiana and it added to the many accomplishments of his 22-year career, during which he has amassed a .735 winning percentage. A winner for sure. But Knight is almost as well

known for his loser's behavior. There was his conviction in absentia, for assault on a policeman Puerto Rico eight years ago. In 1981, he got into a shoving match with a fan from Louisiana State. In 1985, he threw a chair across the court as his team was losing. And less than two weeks ago, he forfeited a game against the So- lie behavior. And he shows no

off the court early in the second half after he had received his

shape," said Jean-Pierre Fournier,

its own contrasting conclusions.

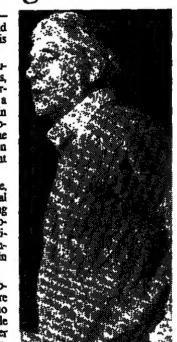

The End of the Swiss Domina-

third technical foul Michael Weisman, the execu-tive producer of NBC Sports, called the latest incident unfortunate and said it was "clearly a mark against Bobby Knight" in NBC's Olympic hiring sweep-stakes. Yet Weisman said the network has made no decision about whether to offer Knight the job.

Knight's behavior, of course, is not incidental to NBC's initial interest in him. Apart from being a successful coach, he is controversial; controversy builds audiences, and audiences mean mon-ey. Would more viewers tune in if Knight were broadcasting?

NBC is not alone in succumbing to such temptations, for there are several broadcasters who have been guilty of questionable behavior, such as Ken Stabler and Jim Brown. Without excusing their behavior, it is fair to draw a distinction between what they did in their private lives and their public performances. Stabler and Brown performed as live at the same level.

Knight, on the other hand, has contaminated his professional achievements with boorish pubviet national team by pulling In- signs of improving with age.

Bobby Knight

That Indiana continues to tolerate his tantrums, as long as be wins, is no excuse for NBC to do the same. Winning is not everything, and even show business should have some limits.

#### ART BUCHWALD

## Wooing the Wimp Vote

WASHINGTON — "George wimps — perhaps it has something to do with his living in Texas." Whiner told me.

"In what way?" I asked.
"By declaring he is not a wimp be's alienating the wimp vote in the country.

So what?" "He needs a lot of wimps to win the election." "I didn't know there were

many," I said. There are a lot more of us than there are of them," Whiner said. "And don't

forget wimps vote as a bloc." "You'd think Buchwald Bush's people

would have researched it." "By denying he is a wimp, Bush is sending out a message that there is something wrong with being one. That's what the wimps are crying about. The question we would like to put to the vice president is what's wrong with being one if it's how

"I guess nothing if you don't flaunt it." "There are some of us who think

Bush is a secret wimp and is afraid to come out of the closer." "I don't believe that," I protested. "I think he honestly hates

#### House Votes to Make Sousa March Official

The Associated Press

WASHINGTON — The House of Representatives has unanimously approved legislation to designate John Philip Sousa's "The Stars and Stripes Forever" the national march of the United States.

A similar bill passed the Senate on Nov. 6, so the House action sends the measure to President Ronald Reagan for signature. The White House has said the president. is not opposed to the legislation.

Sousa was born in Washington in 1854. He joined the U.S. Marine Corps in 1868 as a band apprentice, and led the Marine Band from 1880 to 1892, when he formed his own band, with which he toured in the wrote "The Stars and Stripes For-

There are a lot of wimps in Texas. We're all over the map, and when we get upset we can be a mighty force in deciding who our next president is going to be. If Bush thinks the macho voters are going to put him over the top without wimp support he's crazy."

"What makes a person a wimp?"

I asked.
"It's definitely genetic. It's passed down through the male side of the family. You can always spot a wimp because he whines and cries a lot and continually loses at arm wrestling."

"Women don't like wimps, do

They say they don't, but most of them marry one. Shere Hite, who just completed a sexual survey, says 93 percent of all American women have slept with a wimp. Women prefer them because wimps are afraid to yell at their mates."

"So by attacking wimps Bush could lose the spouse vote as well?" "It seems that way. No woman wants a president who doesn't remind her of her husband."

"Are you predicting the wimp factor will decide the 1988 elec-

"I believe so. The wimps are sick and tired of being denigrated by politicians and football fans, and we intend to introduce Wimp Power into the White House. By insisting he is not a wimp Bush is endorsing the prejudice that we have had to live with for years. We may be snivelers, but we have rights too."

"Suppose all the candidates ig-nore you. What will your people

"Sit the election out. Wimps don't have to vote unless they want

"It appears that Bush has a lot of apologizing to do before he gets your support. What can he do to make it up to you?"

"I'd like him to go on television and say he respects wimps and admires their way of life. He must come out for equal job opportunities and fair treatment for all wimps. And finally, Bush has to United States and abroad. He promise to appoint a wimp to the Supreme Court as soon as possi-

## Out but Not Down in Bohemian New York

Abbaye Smith, a painter, discovered need for discipline; Kenneth Fuchs, a composer, endured housing "horror story."

By Lydia Chavez New York Times Service

N EW YORK — James Fitzsimmons eats candy bars for lunch because they are cheaper than a sandwich, thinks twice about parting with \$1 for a subway ride and has rid his vocabulary of the word

Fitzsimmons, a 22-year-old production intern at Playwrights Horizons, an off-Broadway enterprise, is one of thousands of aspiring young artists who live in New York City's marginal neighborhoods and work at low-paying jobs to seek success.

Many come, starry-eyed and ready to suffer, but discover the reality of Bohemian life and quickly retreat to more lucrative professions or to graduate school. Others remain, but housing troubles, wardrobes of hand-me-downs and years of counting pennies can send even the most committed artists into bouts of self-doubt.

"I knew it would take a lot of work, and it is taking every bit of energy that I thought it would," said Kenneth Fuchs, a composer who has weathered nearly a decade in New York working toward his big break. "It takes a lot of perseverance, a really kind of simple faith in your own

Regardless of the difficulties, the migration of the young to New York City shows few signs of slowing. Hayes B. Jacobs, director of the writing program at the New

mand. Joseph W. Polisi, director of the Juilliard School of Music, said applicants are plentiful. "Establishing your career in the Western world means establishing your presence in New York," he said.

The young may agree, but many of them find life in New York increasingly difficult. Less than a decade ago, aspiring artists lived in deteriorated Manhattan neighborhoods, but are now likely to rent apartments in Inwood, in upper Manhattan, or in one of the other boroughs.

For those who remain in Manhattan, doubling up in one-bedroom apartments has been replaced by bunking two to a studio apartment, or four to a one-bed-

Fitzsimmons shares an apartment with a friend, cooks at home and, like many artists, is plugged into an odd-job network. He worked over the summer to save enough money to enable him to take an internship that pays him \$70 a week. His style of living, he said, could eventually become tiresome, but for now he feels flucky to have all these great opportuni-

Fuchs, who is completing his doctorate in music composition at Juilliard, knows what it is like to become weary of the artist's struggles. Until two years ago, he lived in a rent-controlled brownstone near Juilliard, where he paid \$650 a month for

School, said writing workshops are in de-building was purchased, and after a twoyear court battle, Fuchs was evicted.

High rents forced him to settle in Inwood, where he pays \$850 a month for a smaller apartment and must make a long subway commute to Juilliard. "It was a New York horror story," he said. "Some-thing changed after that. I still believe in my music, but I'm not sure that I want to put up with the hassle. The older I get, the more I learn that the quality of life is important."

Douglas Grabowski, another intern at Playwrights Horizons, lives with his parents in New Jersey and has postponed paying his student loans to be able to work at Playwrights for 570 a week.

"I wish I had more money," he said, "But I decided in my last year of school that I wanted to be happy my first year out of school rather than well off. It scares me because I think after this year is up, where will I go next, but with references from here, maybe I could read plays for a little

Some of those who have left New York have returned for another go-around.

Abbaye Smith, 29, a painter who graduated from the Tyler School of Art in Philadelphia, moved to New York City in the early 1980s, but she confused being an artist with being a part of the social scene and found little time to paint. "I always wanted to be a painter, but didn't know an apartment he shared with a friend. The what it would take," she said. "I was so

CLASSIFIED

**EMPLOYMENT** 

young I didn't realize I had to be so disci-

Smith is again pursuing her art here and shares a flat with a friend. She works on displays in retail shop windows, or designing textiles. The rest of the time she paints at a studio cooperative. The flat she shares is uncomfortable at best. Privacy is nonexistent, she said, and no matter how nice the roommate, living with another person's quirks is not fun.

Vicki Hickerson, who is appearing in the Christmas show at Radio City Music Hall, said she once had a roommate who bought a gun. Hickerson moved out. In another instance, she said, a roommate's best friend dropped in from out of town and stayed. Again, she moved out.

The smallest break for any artist, however, seems enough to crase the bad experiences. Several years ago, Fuchs wrote the playwright Lanford Wilson and proposed adapting one of Wilson's plays to music. It worked, and the play is to be produced at a workshop at the Circle Repertory Compa-

"The musical gives me fuel for the next 10 years," Fuchs said, but he admits to having low points. "I have learned to appreciate every theater performance I go to and the good clothes that I have," he said, "but I am getting a little frustrated and bored with being a Bohemian. I'm not expecting to be rich in five years, but it would be nice if the pressure would let up a

#### PEOPLE

Two Cézanne Notebooks

Are Donated to Museum Two Paul Cézanne sketchbook valued at \$4.5 million have bedonated to the Philadelphia Mos um of Art by Walter Aunente the publisher and former U.S. and bassador to Britain. Cezanne apparently used the same sketch books throughout his career drawing in whichever one came to hand. The museum staff said the 81-page collection of sketches be gan in the early 1870s and did ac end until after 1900. Cezanne die

Prince Charles arged city planers to repair what he called it damage of architects who h wrecked the London skyline ar desecrated the dome of St. Paul Do we still have to strive to be stunted imitation of Manhattan the 39-year-old heir to the Brit throne asked a gathering of places as he attacked the profit tion of skyscrapers. "You have give this much to the Luftwaffe when it knocked down our but ings, it didn't replace them anything more offensive than n ble. We did that," Charles said ble. We did mat, "Charies sand British architects reacted politic saying Prince Charles's criticis would provoke debate but if fuzzy, out-of-date and amateuri Francis Tibbalds, the next char man of the Royal Town Planni Institute, said: "It is a valid cricism of what happened in the 195 and 1960s but I would not accept as a criticism of what is happen now." Norman Foster, who signed the Hong Kong and Shan hai Bank headquarters in Ho Kong, said he agreed with t prince's architectural opinions it as he agreed with his holistic a proach to medicine. But he adde I do not think the Prince of Wal would go so far as to prescribe cure of cancer for the body, yet. feels qualified to prescribe a cu for the cancer of our cities."

King Baudouin of Belgiu named the French choreograph Maurice Béjart, 59, a Grand Of cer of the Order of the Crown T founder of the Ballet of the 20 Century left Brussels this summ after a stay of 27 years following conflict with the director of t Brussels opera. Béjart said he wat ed to seek new artistic challens with a new dance group in Li sanne, Switzerland,
